

# AI for Good Foundation and the Polish Consulate to Host Event Highlighting Ecocide and Environmental Crimes in Ukraine

*AI for Good & Poland's NYC Consulate will host an event on Oct 17 highlighting Russia's ecocide in Ukraine. Details: [gofundraise.link/preserve-ukraine](https://gofundraise.link/preserve-ukraine)*

NEW YORK CITY, NY, UNITED STATES,  
September 30, 2024 /

[EINPresswire.com/](https://EINPresswire.com/) -- On October 17th  
at 6:30pm, the [AI for Good Foundation](https://AIforGood.org)

and the Consulate General of the Republic of Poland in New York will co-host an event dedicated to raising awareness about the environmental devastation caused by Russia's armed forces during the ongoing war in Ukraine. This event will spotlight the critical issue of ecological destruction over the past two and a half years, drawing attention to the long-term environmental consequences of the conflict.

“

The ongoing deliberate environmental destruction that Russia is perpetrating in Ukraine holds the entire world hostage, preventing progress towards critically important climate goals. We must act now.”

*James Hodson, Chief Executive  
Officer, AI for Good  
Foundation*

## An Evening to Remember

The event will feature speeches from high-level government officials, diplomatic representatives, and civil society leaders. Additionally, attendees will have the opportunity to view a curated exhibit on environmental crimes from [Svidok.org](https://Svidok.org), Ukraine's National War Archive, which serves as the largest repository of personal experiences from civilians impacted by the war.

The event will also feature a fully catered dinner of regional specialties, an auction of artworks by prominent Ukrainian

artists including Kateryna Kryvolap and Anna Zaiachkivska, alongside rare artifacts and handmade items for sale. Proceeds from the auction will go towards historical preservation and frontline medical aid in Ukraine. The art auction is open to online bidding at

<https://gofundraise.link/preserve-ukraine>.

## Environmental and Cultural Preservation

The evening will focus on the continued efforts to document and combat the environmental devastation wrought by Russia's invasion of Ukraine. Russia's ecocidal actions have severely affected millions of acres of Ukrainian land, destroyed protected nature reserves, and triggered environmental disasters with far-reaching consequences. The event will serve as a platform to address these pressing issues and advocate for increased global support in preserving Ukraine's environmental and cultural heritage.

## A Joint Effort for Global Awareness

This will be the second collaboration between the AI for Good Foundation and the Consulate General of the Republic of Poland in New York, following a successful event in 2023. The partnership continues to emphasize the need for global awareness of the cultural and environmental impacts of the war in Ukraine.
