

KomodoSec Earns ISO 27001 Certification, Enhancing Global Information Security Standards

KomodoSec's ISO 27001 Certification ensures top-tier data security, bolstering trust in our comprehensive cybersecurity solutions.

NEW CASTLE, DE, UNITED STATES,
September 30, 2024 /EINPresswire.com/ -- [KomodoSec](#) Proudly Announces ISO 27001 Certification: Elevating Cybersecurity and Compliance Standards

“

ISO 27001 certification is a cornerstone of our robust cybersecurity framework, enhancing client trust globally.”

Boaz Shunami, Founder and CEO, KomodoSec

KomodoSec, a premier cybersecurity firm, has achieved ISO 27001 certification, reinforcing its commitment to the highest standards of information security. This certification is a testament to KomodoSec’s systematic approach to managing sensitive company and customer information, ensuring data integrity and security across all operations.

ISO 27001 is renowned for its stringent requirements, which necessitate a comprehensive management system and rigorous data protection protocols. KomodoSec’s

attainment of this standard underscores our dedication not only to cybersecurity but also to the robust governance of data processes that protect and enhance business operations.

In addition to general cybersecurity, KomodoSec has a strong focus on enhancing supply chain security. Our services ensure that every link in our client's supply chain is secure, minimizing the risk of data breaches and enhancing overall operational resilience. This is crucial for businesses in today's interconnected digital landscape, where vulnerabilities in the supply chain can lead to significant security threats.

Furthermore, KomodoSec excels in providing [CISO](#)-as-a-Service, offering top-tier executive oversight of cybersecurity strategies that align with corporate goals and compliance requirements. This service is particularly valuable for companies aiming to achieve or maintain [SOC2](#) and ISO 27001 certifications, as it provides the expertise and leadership necessary to

navigate the complex landscape of information security compliance.

"ISO 27001 is more than a benchmark; it is part of our commitment to excellence in cybersecurity," said Boaz Shunami, Founder and President of KomodoSec. "This certification not only enhances our ability to protect our own systems but also empowers us to better serve our clients, helping them achieve their own ISO 27001 and SOC2 certifications through comprehensive strategies and solutions tailored to their specific needs."

As cyber threats evolve, KomodoSec remains at the forefront of the industry, committed to innovation and excellence in protecting our clients'

information assets. Our ISO 27001 certification is a promise to our clients that we adhere to the best practices in information security management, providing peace of mind and a competitive edge in cybersecurity and compliance.
