Night cream products enhance skin revitalization through its rich moisturizing effects. Most of the night creams help in preventing epidermal moisture loss and also provide ample lubrication. Night creams with Melatonin (strong antioxidant molecule) improve the penetration of the Mel molecules through the skin layers, thereby, preventing skin ageing. Creams comprise of Melatonin have been developed (Nutriage day cream and Nutriage night cream) and commercialized in the night creams market. These products are gaining popularity among working population of age between 25-40 years. The outstanding benefits coupled with skin friendly ingredients have boosted the adoption among the consumer base. Women with skin aging issues have significantly received skin tonicity and skin hydration and also witnessed reduction in skin roughness with the help of night cream products.

Night cream cosmetic products have gained popularity owing to its antioxidants and anti-wrinkle content, which helps in reducing the pace of skin aging. Nigh cream products are also sought for

its skin whitening and moisturizing attributes among millennial and generation Z. Skin whitening night cream contains common ingredients such as AHA, BHA*, Retinol, Vitamin A, and others. These ingredients enhance the skin brightness when used along with other skin care regime such as SPF 30. The presence of such multifunctional night cream products in the market and ever increase in demand for multifunctional cosmetic products have propelled the revenue growth of the overall night creams market. The companies with wide spread product portfolio of night creams are targeting specific group of consumers through their innovative marketing strategies. These companies are conducting sessions or programs to increase awareness among the targeted group of consumers.
