

# Mountainside, NJ Deployed Vital Records Request Module and More New Modules With GovPilot

*Mountainside, NJ expands their partnership with the government management software provider to streamline operations and government services in the municipality*

MOUNTAINSIDE, NJ, UNITED STATES,  
October 1, 2024 /EINPresswire.com/ --  
Customer Since 2024 with 5 Total  
Modules Deployed

The Township of Mountainside, NJ has implemented additional government management software solutions into their municipal offices for 2024 in order to automate processes, digitally manage data, and engage citizens via the cloud with [GovPilot](#) - the Operating System for Local Governments. In collaboration with GovPilot, a government management software provider based in New Jersey, this municipality of Union County, expanded a partnership that will allow the local government to access new, modern, software solutions across the municipality.

This partnership aims to provide both citizens and government officials simplified access to data and information that will save valuable time and resources across the board. GovPilot's customer success rates and stellar reviews set this government management software provider apart from all others, streamlining the implementation of new software solutions efficiently and successfully for Mountainside.

Mountainside, NJ added the following solutions to their municipality:

Mercantile License Module

[Vital Records Request Module](#)

[Dog License Module](#)

Marriage License Module

Cat License Module

Mountainside, NJ Deployed Vital Records Request Module and More New Modules With GovPilot

Learn more about these modules:

**Mercantile License Module:** Businesses are able to easily apply for and renew their annual mercantile licenses while the issuing department can keep track of renewal statuses.

**Vital Records Request Module:** Applicants can apply on-line for a copy of a vital record, such as a Birth Certificate, Marriage License, or Death Certificate, with required information being mandatory for submission. Once submitted, the registrar can schedule appointments and be able to produce the application on an official state form.

**Dog License Module:** The Dog License module offers a convenient solution for dog owners to apply for and renew their annual licenses, and an efficient way for issuing departments to manage and track renewal statuses. Automatic renewal reminders can also be sent to ensure timely renewal. A database of registered dog owners, including contact information, which can be useful for animal control officers in the event that a pet goes missing. Additionally, the module includes payment collection capabilities.

**Marriage License Module:** Applicants can apply on-line for a marriage license, with required information being mandatory for submission. Once submitted, the registrar can schedule appointments and be able to produce the license on an official state form.

**Cat License Module:** The Cat License module offers a convenient solution for cat owners to apply for and renew their annual licenses, and an efficient way for issuing departments to manage and track renewal statuses. Automatic renewal reminders can also be sent to ensure timely renewal. A database of registered cat owners, including contact information, which can be useful for animal control officers in the event that a pet goes missing. Additionally, the module includes payment collection capabilities.

All additional software solutions deployed by Mountainside in 2024 will continue to simplify and digitize once manual, paper-based government processes, allowing for government workers to dedicate their valuable time to more pressing municipal tasks, and saving constituents the hassle of traveling to city hall in person.

GovPilot By the Numbers for 2023
