Growth Driver Of The DOAS Market

An increasing number of residential and commercial constructions is expected to boost the growth of the DOAS market going forward. Construction refers to building, modifying, repairing, remodeling, enhancing, or destroying infrastructure or facility. Residential and non-residential (including commercial, industrial, and others) infrastructure are part of the construction sector. DOAS (dedicated outdoor air systems) are used in diverse types of buildings including industrial, commercial, residential, and institutional buildings where the selection of DOAS in each building

is influenced by the environment, the age of the building, the owner's and project designer's personal preferences, the project budget, and the overall design of the buildings.
