

# CyberShield at Global Rail in Abu Dhabi: Protecting digitally networked systems in rail transportation

*Cyber security for rail infrastructure*

MANNHEIM, BADEN WÜRTTEMBERG, GERMANY, October 1, 2024 /EINPresswire.com/ -- CyberShield, a leading provider of comprehensive cyber security solutions, will be exhibiting at the Global [Rail](#) Exhibition in Abu Dhabi from October 8th to 10th, 2024. The company will be presenting its solutions for securing rail infrastructure and digitally networked transportation systems at stand 3B54.

Global Rail 2024 is one of the largest trade fairs for rail transportation technologies and innovations worldwide. CyberShield is using this international platform to demonstrate its expertise in the field of cyber security in the transportation sector and to present pioneering technologies to defend against threats to networked systems.

Innovative security strategies for rail systems

With the increasing networking of rail systems, the demands on IT security are also increasing. CyberShield offers customized solutions that are specifically tailored to the security needs of rail operators and rail transport companies. The technologies presented include advanced threat analysis, security architectures and real-time [monitoring](#) to detect and prevent attacks at an early stage.

“With our cyber security solutions, we want to help protect these critical infrastructures from
