Increase in application of textured metals in furniture and construction industry is one of the key factors driving the growth of functional coil coatings market. The demand for functional coil coated metal among furniture manufacturers has drastically increased owing to increasing purchasing power parity of consumers.

In addition to, consumers changing demand for designs and aesthetics of home appliances has increased the use of pre-coated metal in home appliances industry which is further spurring the global functional coil coatings industry. Use of organic ingredients and recycling of the waste and coating tools is expected to drive the functional coil coatings market growth in the near future.

For Purchase Enquiry: <https://www.alliedmarketresearch.com/purchase-enquiry/4625>

The global functional coil coatings market based on technology is bifurcated into liquid coatings and powder coating. The liquid coating method is a traditional method of coating. On the other hand, powder coating is an emerging coating method, which is gaining popularity owing to its

minimal waste output and easy application methods.

Advancements in coil coating technology such as use of organic materials and recycling the coating tools are fueling the growth of the functional coil coatings market. These technologies facilitate consumers to apply the coatings in desired texture and quantity. In addition, they provide wider opportunity for pigment customization.

The global functional coil coatings market has witnessed a significant growth in end-user industries. Functional coil coated metals are widely applicable in these industries, owing to the elimination of the cost required for setting up coating plant and quick availability of the pre-coated metals. Moreover, upsurge in demand for texturization of pre-coated metal boosts the growth of the functional coil coatings market.

Key Findings of the Functional Coil Coatings Market:

Asia-Pacific and LAMEA segments in the backing coats functional coil coatings market are expected to witness significant growth rates at a CAGR of 6.1% and 5.0%, respectively, during the forecast period.

The powder coating functional coil coating market is projected to reach \$177.9 million by 2024.

Europe functional coil coatings market accounted for around 28% of share in 2017.

The UK functional coil coating market was valued at \$8.2 million in 2017, and is projected to register a CAGR of 3.8% from 2018 to 2024.

About Us

Allied Market Research (AMR) is a full-service market research and business-consulting wing of Allied Analytics LLP based in Portland, Oregon. Allied Market Research provides global enterprises as well as medium and small businesses with unmatched quality of "Market Research Reports" and "Business Intelligence Solutions." AMR has a targeted view to provide business insights and consulting to assist its clients to make strategic business decisions and achieve sustainable growth in their respective market domain.

We are in professional corporate relations with various companies and this helps us in digging out market data that helps us generate accurate research data tables and confirms utmost accuracy in our market forecasting. Allied Market Research CEO Pawan Kumar is instrumental in inspiring and encouraging everyone associated with the company to maintain high quality of data and help clients in every way possible to achieve success. Each and every data presented in the reports published by us is extracted through primary interviews with top officials from leading companies of domain concerned. Our secondary data procurement methodology includes deep online and offline research and discussion with knowledgeable professionals and analysts in the industry.
