

# Wenzhou Christine by Antistatics Architecture Wins Bronze in A' Architecture Awards

*Innovative Wedding Art Center Design  
Recognized for Excellence in Architecture,  
Building and Structure Design Category*

COMO, CO, ITALY, October 1, 2024 /EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized award in the field of [architecture](#) design, has announced [Antistatics Architecture](#) as a Bronze winner for their exceptional work, "Wenzhou Christine," in the Architecture, Building and Structure Design category. This prestigious recognition highlights the significance of the Wenzhou Christine design within the architecture industry, positioning it as a noteworthy achievement in the field.

The Wenzhou Christine design showcases the transformative potential of architectural innovation, demonstrating how existing urban structures can be reimagined to create captivating and functional spaces. By drawing inspiration from the fluid forms and intricate details of wedding dresses, Antistatics Architecture has created a wedding art center that not only celebrates the beauty and romance of weddings but also revitalizes the surrounding neighborhood. This design serves as a testament to the power of architecture to enhance both the aesthetic appeal and the practical utility of urban environments.

The Wenzhou Christine design stands out for its creative use of perforated metal materials to transform the facade of a 90s-styled hotel building into a dynamic, wind-simulated wedding dress. The intricate patterns, inspired by lace and embroidery, come to life through carefully placed lighting effects, creating an enchanting atmosphere that entices passersby. The interior spaces, including various display lounges showcasing wedding dresses and accessories, further

Wenzhou Christine

enhance the immersive experience, treating these items as works of art.

The recognition bestowed upon Wenzhou Christine by the A' Architecture, Building and Structure Design Award serves as a catalyst for Antistatics Architecture to continue pushing the boundaries of architectural design. This achievement not only validates the firm's innovative approach but also inspires them to explore new possibilities in creating spaces that seamlessly blend form and function. By setting a high standard of excellence, Wenzhou Christine has the potential to influence future projects and contribute to the advancement of the architecture industry as a whole.

Wenzhou Christine was designed by Mo Zheng as the Design Principal, Martin Miller as the Design Partner, and the Design Team consisting of Boyan Zhang, Christopher Beckett, CiCi Xi, Wenlin Bai, Dhaga Aman, Tracy Qiu, and Xiao Li from Antistatics Architecture.

#### About Antistatics Architecture

Antistatics Architecture is an international creative architecture and design studio founded by Mo Zheng and Martin Miller, based in Beijing and New York. The firm focuses on innovative design utilizing cutting-edge digital tools and advanced fabrication to develop elegant solutions. With a team of experienced professionals, Antistatics Architecture provides architectural solutions that integrate advanced computational tools to find new material efficiencies and user integration.

#### About Bronze A' Design Award

The Bronze A' Design Award recognizes designs that demonstrate a high level of creativity and practicality. It acknowledges the skill and dedication of designers who produce work that stands out for its thoughtful development and innovative use of materials and technology. Winning designs are selected based on rigorous criteria, including innovative use of space, structural integrity, aesthetic appeal, environmental impact, functional efficiency, material selection, technological integration, social relevance, cultural sensitivity, economic viability, design originality, user comfort, energy efficiency, adaptability to change, use of natural light, spatial harmony, safety measures, accessibility considerations, and resilience to weather.

#### About A' Design Award

The A' Design Award is an international, juried design competition organized across all industries, welcoming entries from all countries. Now in its 16th year, the A' Design Award aims to recognize and promote superior products and projects that advance and benefit society, ultimately contributing to the creation of a better world. By showcasing pioneering designs on a global stage and honoring the creative minds behind them, the A' Design Award drives forward the cycle of inspiration and advancement in design.
