BEVERLY HILLS, CA, UNITED STATES, October 1, 2024 /EINPresswire.com/ -- Dark circles can be one of the most frustrating skin concerns, but Dr. Simon Ourian at [Epione](#) Beverly Hills has made it his mission to provide effective, natural-looking solutions.

“

Our approach is all about finding the right solution for each individual, helping them achieve a refreshed and natural look.”

With his extensive experience in cosmetic dermatology, Dr. Ourian is now offering a range of tailored treatments to help clients look more refreshed and revitalized.

Dark circles can appear for many reasons—whether it's genetics, lifestyle, or simply a lack of sleep—and they can affect anyone, regardless of age. Dr. Ourian has developed a series of innovative, non-surgical treatments to target this common issue and help patients regain a brighter, more youthful look.

“We all know how stubborn dark circles can be, and how they make us feel,” says Dr. Simon Ourian. “The key is to find a treatment that works for your specific skin needs, and that’s exactly what we do at Epione.”

Here’s a look at some of the standout treatments offered:

- Coolaser® – Dr. Ourian's signature Coolaser® treatment stimulates collagen production and resurfaces the skin. By gently reducing pigmentation, it brightens the under-eye area with minimal downtime.
- Dermal Fillers—For those with hollow-looking eyes, Dr. Ourian uses dermal fillers to carefully add volume and smooth out the under-eye area. The results are immediate and give a more rested, youthful appearance.
- Topical Skincare Solutions – Dr. Ourian has also developed his own line of skincare products

designed to complement in-office treatments. His brightening serums and creams help maintain results and keep dark circles at bay.

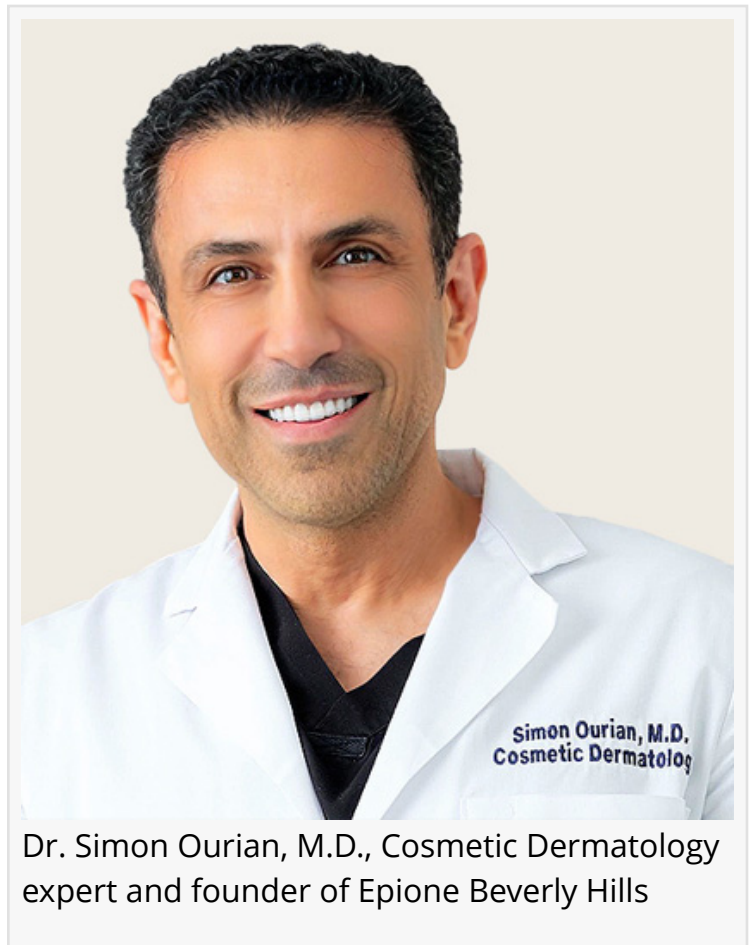

Epione Beverly Hills is known for its high-end clientele, and Dr. Ourian has become a trusted name in cosmetic dermatology for his personalized approach. His goal is simple: to help clients look like the best version of themselves, without drastic procedures.
