

# TEKTELIC to Present LoRaWAN® Portfolio at MWC Las Vegas 2024

CALGARY, ALBERTA, CANADA, October 2, 2024 /EINPresswire.com/ -- TEKTELIC Communications, a leading manufacturer of [Carrier-Grade LoRaWAN® IoT gateways](#), devices, and solutions, is pleased to announce its participation in the upcoming 2024 Mobile World Congress, to be held in Las Vegas from October 6th to 8th. This event will bring together industry leaders, technology innovators, and IoT solution providers, offering TEKTELIC an opportunity to present its latest products and engage with partners and customers.

At booth 810, attendees will have the opportunity to explore TEKTELIC's range of Carrier-Grade IoT solutions, including LoRaWAN® gateways, sensors, and end-to-end systems. These products are designed for various IoT applications, such as Smart Building Management, Asset Tracking, Environmental Monitoring, and Digital Health. TEKTELIC's solutions are optimized for both public and private LPWAN deployments, offering reliable and scalable performance across different environments.

TEKTELIC will present the KONA Radiant, a newly launched tool developed to simplify indoor RF coverage mapping for LoRaWAN® networks, providing users with the insights needed for effective and accurate network planning. Additionally, TEKTELIC's booth will feature live demonstrations of several IoT solutions, including [COMFORT](#), which detects leaks to prevent water damage; [BREEZE](#), a sensor that monitors CO2 levels and indoor air quality; and [SEAL](#), a personnel tracking solution ideal for improving safety in industrial settings.

These demonstrations will highlight how IoT solutions can be applied across various verticals to enhance operational efficiency, safety, and environmental monitoring. Attendees will gain valuable insights into how the adoption of LoRaWAN® technology can help create smarter and more connected environments.

## About TEKTELIC

TEKTELIC Communications specializes in the design and development of Carrier-Grade IoT solutions, including LoRaWAN® gateways, sensors, and end-to-end systems. Headquartered in Calgary, Canada, TEKTELIC has a long-standing reputation for providing high-quality, scalable, and reliable IoT products. The company is committed to supporting global clients by offering solutions that are easy to deploy and maintain, helping businesses harness the power of IoT to drive growth and innovation.
