Weight Loss and Diet Management Market Definition

Weight loss and diet management refer to the reduction of body mass and body fat as a result of losing weight. Diet management is the process of promoting a healthy lifestyle concerning food

options for an individual or community. It is carried out by experts who are qualified to diagnose the patient's nutritional issues and treat them most effectively. These are used for better strength, reduced stress, a balanced mood, an improved social life, an improved immune system, and many more benefits.
