Beyond his role as a business leader, Collins Mayaki has been a strong advocate for financial literacy and generational wealth. Recently, he delivered a thought-provoking talk on the importance of creating and maintaining generational wealth. In this presentation, Mayaki

emphasized the need for individuals and families to adopt strategic financial planning that goes beyond immediate wealth creation to ensure long-lasting prosperity for future generations.

In his talk, Mayaki pointed out that generational wealth is not just about passing down assets but also about passing down knowledge, values, and a strong financial foundation. He outlined actionable steps for families to create a sustainable financial legacy, including diversified investments, comprehensive estate planning, and the importance of financial education for younger generations.

“Generational Wealth is not merely about accumulating assets; it's about creating a legacy that empowers future generations” said Mayaki during his talk. “It’s an enduring gift; it’s the financial heritage that inspires and equips your descendants to create their own success stories.”

His passion for generational wealth underscores the mission of Wealthy You, which is to empower clients with the financial tools and knowledge necessary to build sustainable wealth for themselves and their families.

Wealthy You: Financial Empowerment Through Personalization

Wealthy You, founded by Collins Mayaki, is a financial services firm that specializes in providing personalized financial solutions tailored to the unique needs of its clients. With a client-centric approach, Wealthy You offers a wide range of services, including mortgage brokering, investment strategies, and debt management. The company’s primary goal is to help clients achieve financial independence by offering customized strategies that align with their financial goals.

Under Mayaki’s leadership, Wealthy You has gained a reputation for its commitment to transparency, integrity, and client empowerment. One of the key elements of the company’s success is its focus on education—ensuring that clients understand the financial tools available to them and how best to use those tools to their advantage.

“Our approach at Wealthy You is deeply rooted in the belief that every client’s financial journey is unique,” said Mayaki. “We don’t believe in a one-size-fits-all approach. Automotive Finance: Revolutionizing Vehicle Financing

Collins Mayaki’s leadership extends beyond Wealthy You to Automotive Finance, a company he also founded. Automotive Finance is a leading provider of innovative vehicle financing solutions,

offering clients a seamless and stress-free experience when purchasing a vehicle. The company's mission is to make car financing accessible, transparent, and affordable for Australians, whether they are purchasing a new or used vehicle.

Under Mayaki's guidance, Automotive Finance has set itself apart by offering a wide range of flexible financing options, allowing clients to choose the plan that best fits their needs and budget. In addition, the company's commitment to excellent customer service ensures that clients are supported throughout the entire financing process—from application to final payment.

In response, the company was established with the goal of simplifying the car purchasing process, while ensuring that clients have access to flexible financing options tailored to their specific requirements. Through this approach, Automotive Finance aims to make vehicle ownership more accessible, ensuring a seamless and customer-friendly experience from start to finish.

By leveraging his extensive experience in financial services, Mayaki has been able to build Automotive Finance into a trusted name in the automotive industry.
