

Alabama Mesothelioma Victims Center Recommends the Birmingham Based Environmental Litigation Group to an Electrician-Skilled Trades Worker with Lung Cancer or Mesothelioma Anywhere in Alabama-Get Better Compensation

BIRMINGHAM , AL, UNITED STATES, October 7, 2024 /EINPresswire.com/ -- According to the Alabama Mesothelioma Victims Center, "If your loved one is an electrician who has just been diagnosed with mesothelioma anywhere in Alabama, please call the Birmingham based lawyers at the Environmental Litigation Group at 866-714-6466. The reason we mention lung cancer with mesothelioma is because asbestos exposure can also cause lung cancer in what is called asbestos exposure lung cancer in far greater numbers than mesothelioma. Tragically most of these people never get compensated because they are not aware the asbestos trust funds were set up for them too.

"Electricians who were on the job before 1983 probably had significant exposure to asbestos because there were no prohibitions related to exposure. Numerous electrical products contained asbestos including fuse boxes, circuit breakers, electrical wires, some types of outlet boxes. Additionally, electricians were probably forced to work around asbestos containing insulation in new construction or remodels and or repairs.

"If your husband or dad is a former electrician in Alabama and he has just been diagnosed with asbestos related lung cancer or mesothelioma call the Birmingham based Environmental Litigation Group anytime at 866-714-6466. The lawyers at the ELG will know exactly how to help you."
