

# Colombian Hand Surgeon, Dr. Fabio Tandioy, Makes Impact at ASSH Summit and Prepares for Keynote in Rome

MINNEAPOLIS, MN, UNITED STATES, October 7, 2024 /EINPresswire.com/ -- Dr. Fabio Tandioy, a renowned Colombian hand surgeon, recently showcased his expertise at the prestigious American Society for Surgery of the Hand (ASSH) summit in Minneapolis, a premier gathering for global leaders in hand surgery. Dr. Tandioy's contributions were highly regarded, particularly his role in organizing a pre-congress course on advanced arthroscopic techniques, which received top evaluations from summit attendees.

The organizers of the Minneapolis event commended the success of Dr. Tandioy's initiative. "Thanks, my friends, for making this possible! I really feel proud of your talent and friendship. The pre-course, which you were invited to by me, was evaluated as the best by ASSH! Thanks a lot! We will have to keep working as a team," the organizing committee shared, reflecting the collective pride in the achievements of the event.

Additionally, Dr. Martin Caloia, President of IWAS and an organizer of innovative techniques in hand and wrist surgery, emphasized the significance of the Minneapolis event: "We are proud to have organized the event that had the most impact at the ASSH congress, where we discussed cutting-edge techniques in arthroscopy and nerve injuries. Dr. Fabio Tandioy's participation was phenomenal, as was the contribution of all the other speakers. It was of the highest academic standard and will undoubtedly generate new treatment options for hand-related issues."

Dr. Tandioy is now preparing to speak at the 62nd Italian National Congress of Hand Surgery, set to take place in Rome from November 14-16, 2024. He will deliver his keynote address on Saturday, November 16, at 10:10 a.m., making him the only speaker from Latin America to be featured at this prestigious event. Experts from Spain, France, the United Kingdom, and the

United States will also be presenting at the congress, which is known for gathering the most innovative minds in the field of hand surgery.
