Baler Market Definition

The baler refers to a piece of farm equipment used to compact a harvest that has been scraped and sliced into manageable, transportable, and practical bales for storage. Bales can be rectangular or cylindrical, of varied diameters, wrapped with twine, strapping, netting, or wire, and produced by various types of balers, each of which is frequently employed. Additionally, industrial balers are used in material recycling plants, typically for the transportation of metal, plastic, or paper bales.
