Explore Wonderland Japan!

Vision plans and develops tours, destinations, and activities throughout Japan using unique

methods and extensive marketing knowledge, and aims to provide valuable Japan travel experiences for inbound tourists considering a visit to Japan.

### Background of Brand Building for Japan Visits

According to estimates by the Japan National Tourism Organization (JNTO), the number of foreign visitors to Japan in July 2024 reached 3,292,500 (up 10.1% from 2019), the highest number ever for a single month. The government also aims to quickly achieve a target of more than 5 trillion yen in spending on travel to Japan by 2025, and Japan’s inbound tourism industry is experiencing significant growth.

On the other hand, the forms of travel to Japan and the needs of inbound tourists are diversifying, and travel agencies with DMC functions are required to provide fresh and flexible services to meet the different travel styles in each country.

Therefore, Vision launched the Service as a part of its Glamping and Tourism Business in 2023, utilizing its Type 1 Travel Agency (Registered travel agency with the Commissioner of the Japan Tourism Agency No. 2075). We have already developed business partners in 15 countries and have welcomed customers from overseas.

In addition, we have launched a brand “Japan Destinations” to provide more attractive travel to Japan through the Service. We will grow the Service into one that can provide a variety of tours, destinations, and activities to customers from more countries, focusing on the issue of overtourism in Japan due to the rapid increase in inbound tourists as well as on regional

revitalization.
