As per furfural market report, Based on application, the furfuryl alcohol segment contributed to the highest share in 2019, accounting for around three-fourths of the total share, and is expected to maintain the dominant position during the forecast period. In addition, this segment is estimated to witness the highest CAGR of 7.1% during the forecast period. The research also discusses segments such as solvent and others.

Furfural market growth is driven by ease in availability of raw material and surge in awareness regarding benefits. However, lack of advancements in technology to develop better products and varying prices of raw materials hinder the market growth. On the other hand, untapped potential in emerging economies creates new opportunities in the coming years.

Based on region, Asia-Pacific held the largest share, accounting for more than three-fourths of the total market share in 2019, and is expected to maintain its dominant share during the forecast period. Moreover, this region is expected to grow at the largest CAGR of 7.1% from 2020 to 2027. The report also analyzes segments including North America, Europe, and LAMEA.
