“I believe that providing our lightweight solution for free is mutually beneficial for us and our clients,” said Fidesic’s VP of Product and Growth, Kevin Pritchard. “We never want to sell a software package to someone, only to have them realize three months later that it’s not a good fit.”

“

We can’t wait to see old friends and meet new ones at Summit. It’s going to be the perfect venue for this exciting relaunch.”

“As a trial for potential Fidesic Pro customers, Fidesic Free allows AP professionals to truly test our product against their processes. For smaller volume companies, Fidesic Free represents a significant cost savings, and supporting

other small businesses is a win-win for the entire SMB community,” said Pritchard.

Fidesic Free includes one company setup, 3 users and 100 invoice scans per month. There are transactional fees for payment fulfillment and the free version is capped 100 invoices per month, the company said. Learn More: [Fidesic Free AP Automation](#)
