

THE AIM ORGANIZATION ANNOUNCES 74% GROWTH FROM Q3 2023 COMPARED TO Q3 2024

AIM'S PROPRIETARY SYSTEMS FUEL GROWTH

ATLANTA, GA, UNITED STATES, October 9, 2024 /EINPresswire.com/ -- The AIM Organization, an interventional healthcare solutions company, proudly announces a significant increase in revenue Q3 2024 compared with the same time period Q3 2023, increasing from \$178,000 to \$310,000 representing a 74% increase in revenue. This significant growth of approximately 74% highlights AIM's successful execution of strategic initiatives and its unwavering commitment to delivering its services to patients suffering from advancing osteoarthritis and obesity.

This outstanding growth from Q3 2023 to Q3 2024 is a testament to AIM's Proprietary Systems focused efforts on expanding clinical services, enhancing treatment protocols, and investing in advanced medical technology. These strategic measures have significantly improved patient outcomes, increased patient intake, and optimized operational efficiencies across all of AIM clinics.

Ralph Lombardo, CEO of AIM, expressed his enthusiasm about the company's performance, stating, "This year-over-year growth reflects our team's dedication and the effectiveness of our proprietary systems to maximize patient flow and collections from the 3rd party insurance carriers. We fully expect these revenues to continue to grow as we will open our 3rd clinic this month."

Jack Wright, Chief Technology Officer added, "Since the launch of our proprietary billing system (SECURE) we have collected more than 95% of medical claims submitted for services rendered. Compared with industry averages, most clinics only collect 85-90% of the claims submitted because of errors or improper documentation. (Secure) ensures all encounters with our providers are captured appropriately and align with our contracted rates. The leap from \$178,000 to \$310,000 underscores our capacity to adapt and thrive in a competitive healthcare landscape."

As AIM looks to the future, it is poised to maintain this momentum with continued investments in innovation and strategic expansions aimed at further enhancing the quality and accessibility of healthcare services provided. AIM's goal is to reach 100 clinics over the next 5 years

About AIM

AIM owns and operates a network of profitable clinics, specializing in chronic pain, obesity, and comprehensive ambulatory functions. Renowned for its innovative approach and patient-centered care, AIM is dedicated to improving patient outcomes and enhancing the quality of life.
