October 5, 2024

Dear Shareholders,

We are pleased to announce a significant milestone for ARtelligence Holdings, Inc. On September 26, 2024, we received the long-awaited valuation of our intellectual property, AI Visual Thesauri — at an impressive \$5,230,085,000.

The valuation was conducted by C. Zachary Meyers, PLLC. Both a Certified Public Accountant and a Certified Valuation Analyst, Mr. Meyers has been retained in over 3,000 cases as a testifying, consulting, or joint/court appointed expert. He has also made significant contributions to the financial disciplines at the highest levels from his multiple influential roles as the: Former Chair and Current Member of the Standards Board for the National Association of Certified Valuators and Analysts; Advisory Council Member for the Global Association of Valuators and Analysts; Member of the Appraisal Standards Board, Business Value Task Force, and Business Valuation Resource Panel for the Appraisal Foundation in Washington, DC.

Our extensive collection of digital images, one of the largest in the world, is a critical asset for the development of Visual Language Models in Artificial Intelligence (AI) and Augmented Reality (AR). This valuation, which we believe is quite conservative, underscores the immense potential and

strategic importance of our intellectual properties in these rapidly evolving fields.

Our achievement of this valuation is a testament to the hard work and dedication of our team and positions ARtelligence Holdings strongly in the AI and AR markets.

We are excited about the future and the opportunities this valuation brings to our company, especially as we endeavor to meet all regulatory requirements as soon as practicable and as market conditions allow.

Thank you for your continued support.

Sincerely,

Timothy A. Holly  
Chairman and CEO  
ARtelligence Holdings, Inc.
