

Neurological Biomarkers Market Size Projected to Reach USD 18.9 billion, Globally, by 2031 at 13.6% CAGR

increase in Alzheimer's disease. Parkinson's disease and multiple sclerosis in North America is projected to create lucrative opportunities in the marke

PORTLAND, OR, UNITED STATES, October 9, 2024 /EINPresswire.com/ --A new business intelligence report released by Allied Market Research, the global Neurological Biomarkers Market size was estimated at \$5.4 billion in 2021 and is expected to hit \$18.9 billion by 2031, registering a CAGR of

Neurological Biomarkers Market Size 2024

13.6% from 2022 to 2031. The report provides a detailed analysis of the top investment pockets, top winning strategies, drivers & opportunities, market size & estimations, competitive landscape, and evolving market trends. The market study is a helpful source of information for the frontrunners, new entrants, investors, and shareholders in crafting strategies for the future and heightening their position in the market.

Rise in the prevalence of neurological diseases such as Huntington's disease, schizophrenia, Parkinson's disease, Alzheimer's disease, and others drives the growth of the global neurological biomarkers market. Based on application, the Alzheimer's disease segment held the major share in 2021. By region, on the other hand, Asia-Pacific would cite the fastest CAGR by 2031.
