"We are grateful for all the work reflected and the process we have had, "Party" despite the fact that it is the first song, is a song that generates thousands of emotions and that shows that quantity is not quality. This single gives us to reflect on a love of adventure between two people who do not know what they want but feel attraction, where this encompasses life and this beautiful process.

Dima and Lalo (the tune of perreo) invites you to listen and jam to the song now available in all streaming platforms.

"Party has meant a lot to me, because I recorded it at a stage of my life where I had the "spark" of inspiration, party

more than a lyric is the meaning I keep from the day I recorded it with the whole team, it was a very cool and very cool collaboration to have found people with a lot of talent too and who have a lot of lyrics, a lot of history and the truth is that everything infected me and filled me with a lot of motivation in the camp we did together with BLACKVIRD who have put all their faith in us and have given us the biggest push in life," said Vélez.

“

I am very proud of this record, we have reached multiple chart positions during the first week of release, sharing the Top charts with artists such as Karol G, Blesd and others is amazing.”
