

Dylan Healy, Co-Founder of Animation Explainers, on Revolutionizing Business Communication

In an Exclusive Interview with Xraised, Healy Shares His Insights on the Power of Animation in Modern Business Communication

LONDON, UNITED KINGDOM, October 10, 2024 /EINPresswire.com/ -- In a recent in-depth interview with [Xraised](#), Dylan Healy, the visionary co-founder of [Animation Explainers](#), revealed the key to the company's rapid rise in the world of digital marketing and

animation. He shared valuable insights on how they are transforming the way businesses communicate complex ideas by turning them into concise, engaging, and visually appealing animated explainer videos. [Watch the Full Interview Here](#)

As businesses increasingly battle for attention in the crowded digital landscape, Healy emphasized how critical it is to capture and secure—the audience's focus. "Let's face it—people's attention spans are becoming worse than a goldfish's," Healy remarked. "If we want to engage our target audience, we have to accept that as fact and get innovative. At Animation Explainers, myself and Aaron Connolly make business ideas instantly understandable through clear and captivating storytelling."

Since it was established in 2018, Animation Explainers has grown from a simple idea between Aaron and Dylan into one of the market leaders in the explainer video industry. The company has crafted over 1,500 videos for more than 300 clients, including world-renowned brands such as DHL, Mattel, The PGA Tour and Genius Sports. Specializing in creating custom-animated videos that help businesses across industries explain their products, services, or concepts, Animation Explainers' offerings have proven invaluable in today's fast-paced digital age.

Global Reach and Industry Expertise

Animation Explainers works with clients across the globe, including the USA, Canada, the UK,

Xraised & Animation Explainers

Europe, Asia, and Australia. Their expertise spans a wide array of industries, including medical, finance, fintech, cybersecurity, human resources, IT, eCommerce, insurance, and more. No matter which industry, Animation Explainers' goal is to break down intricate ideas into simple, easy-to-understand visuals that captivate audiences.

In the interview, Healy shared, "Our motivation from day one has been to help businesses explain tricky concepts clearly, without turning away the modern consumer who is bombarded with information and has little time to spare. Every video we create begins with a deep understanding of the client's brand and message, ensuring that we effectively convey their story with clarity and impact."

A Seamless, Tailored Process: From Script to Animation

At the heart of Animation Explainers' success is their customized approach to every project. The process begins with thorough research and consultation, where their team of creative professionals collaborates with clients to shape the video's direction, messaging, and tone. This involves four key stages:

1. Storytelling – crafting a concise and engaging script that captures the essence of the brand or message.
2. Custom Animations – developing visually stunning animations tailored specifically to the client's needs.
3. Voiceover & Music – selecting the perfect voice and music that matches the video's tone and resonates with the audience.
4. Reviews & Revisions – fine-tuning the final product to ensure every element is polished and aligned with the brand's vision.

From start to finish, the typical project turnaround is as little as 4 weeks, making it efficient without sacrificing quality. Their multilingual capabilities, offering videos in languages such as English, German, French, Dutch, Italian, Spanish, and many others, enable them to connect with diverse audiences around the world.

"Our team is passionate about every project we undertake, and that enthusiasm shows in the final product. We help businesses effectively communicate their value in ways that resonate with their audience, creating a memorable and engaging experience," said Healy.

The Power of Explainer Videos in Today's Digital Marketing

In the highly competitive world of digital marketing, explainer videos have emerged as one of the most effective tools for businesses to stand out. Healy highlighted that animation offers a unique opportunity to engage consumers in ways that other forms of content often fail to achieve. The short, visual format appeals to the modern consumer's need for quick, digestible information, all while delivering complex ideas in an easily understandable manner.

“Consumers today are overwhelmed with information, and businesses are constantly vying for their attention,” Healy noted. “Explainer videos are the perfect solution for cutting through the noise and delivering key messages that resonate. That is why we have seen so much demand for our services—businesses recognize the value we bring in helping them explain their ideas, products, and services in a way that’s not only efficient but also highly engaging.”

A Vision for the Future of Digital Storytelling

Looking ahead, Animation Explainers remains committed to evolving alongside the latest animation trends and digital marketing strategies. Healy emphasized that innovation is at the core of their business. As they continue to grow, they are exploring innovative methods to expand the potential of explainer videos, from bold new storytelling techniques to cutting-edge animation styles.

Healy concluded the interview with a message for businesses: "If you want to engage your audience, explain your products or services, and stand out from the competition, explainer videos offer a dynamic solution. At Animation Explainers, we are here to help bring your vision to life in a manner that leaves a lasting impression on your audience.."
