Growth Driver of The Financial Leasing Services Market

The increasing number of small and medium-sized enterprises (SMEs) is expected to promote

growth in the financial leasing services market in the coming years. SMEs are defined as businesses with a limited number of employees and revenue, typically set by specific thresholds in each country or organization. The growth of SMEs is driven by rising entrepreneurial activity and supportive policies that encourage business creation and innovation. Financial leasing services enable these enterprises to obtain essential equipment and assets with lower upfront costs and better cash flow management.
