What Is The Estimated Market Size Of The Global Retail Logistics Market And Its Annual Growth Rate?

The retail logistics market is expected to witness substantial growth, with projections indicating it will reach \$357.81 billion by 2028 at a CAGR of 10.3%. This growth is attributed to the need for efficient order fulfillment,

effective supplier coordination, rising urban populations, regulatory constraints, and increasing disposable incomes. Major trends expected during this period include the adoption of robotics, innovations in last-mile delivery, sustainability initiatives, omnichannel integration, and same-day or hyperlocal delivery options.

Growth Driver of The Retail Logistics Market

The expanding e-commerce sector is expected to drive the growth of the retail logistics market in the near future. E-commerce includes all commercial transactions conducted electronically over the internet. The growth of this sector is fueled by increased internet access, the convenience of online shopping, and a wider range of digital payment options. Retail logistics in e-commerce plays a crucial role in the efficient storage, management, and delivery of goods, ensuring customer satisfaction through timely and accurate order fulfillment.
