Understanding Beneficial Ownership Information (BOI) Reporting
Under the Corporate Transparency Act, many U.S. and registered foreign businesses are required to submit a BOI report to FinCEN. This report discloses information about individuals who directly or indirectly own or control a company, aiming to enhance transparency and prevent misuse of legal entities for illicit activities.

FinCEN, a bureau of the U.S. Department of the Treasury, collects this information to safeguard the U.S. economy against financial crimes, operating under the principle: "Follow The Money." Reported BOI is stored securely and is exempt from disclosure under the Freedom of Information Act (FOIA).
