

Global Dental Sleep Medicine Market Overview And Statistics For 2024-2033

The Business Research Company's Dental Sleep Medicine Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UNITED KINGDOM, October 15, 2024

[/Einpresswire.com/](https://www.einpresswire.com/) -- The dental sleep medicine market has experienced

significant growth in recent years. It is

projected to increase from \$5.44 billion in 2023 to \$5.83 billion in 2024, with a compound annual growth rate (CAGR) of 7.2%. This growth during the historical period can be attributed to heightened awareness of sleep disorders, the rising incidence of obstructive sleep apnea, increased healthcare spending, a growing emphasis on non-invasive treatments, and an expanding elderly population.

Dental Sleep Medicine Global Market Report 2024 –
Market Size, Trends, And Global Forecast 2024-2033

The growing demand for cosmetic dental treatments is expected to drive the expansion of the market in the coming years. Cosmetic dental treatments focus on improving the appearance of teeth and smiles, emphasizing aesthetics over function. This demand is rising due to increased awareness of oral aesthetics, advancements in dental technology, greater attention to personal appearance and self-esteem, and more affordable treatment options. Dental sleep medicine, which primarily addresses sleep-related breathing issues, complements cosmetic dental treatments by reducing bruxism, restoring proper jaw alignment, and promoting overall oral health, ensuring better outcomes for cosmetic procedures.
