

pfSense Software Takes Home 35 Awards in the G2 Fall 2024 Report

AUSTIN, TX, UNITED STATES, October 14, 2024 /EINPresswire.com/ -- Netgate®, a leader in secure networking solutions, today announced that pfSense® software has received 35 awards in the G2 Fall 2024 report. G2 is a technology review platform where businesses can find and compare software solutions based on user reviews and ratings. pfSense software has been recognized

We are honored to receive these awards and will continue providing high-performance and affordable firewall, VPN, and routing solutions. Thank you!"

Jamie Thompson, Netgate CEO

across various business segments and performance areas, with Enterprise, Mid-Market, and Small Business awards in categories such as Best Results, Best Relationship, Best Usability, and Most Implementable for both the Firewall Software and Business VPN groups.

"G2 awards are based on [reviews by real users](#). These awards are important to Netgate because they represent how customers view our products," said Jamie Thompson, Netgate CEO. "We are honored to receive these awards

and will continue providing high-performance and affordable firewall, VPN, and routing solutions. Thank you!"

About pfSense Software

pfSense software is the world's leading firewall, router, and VPN solution for secure network edge and cloud networking. Millions of users worldwide trust pfSense to protect their networks. pfSense software was developed for many years by the open-source community led by Netgate. Netgate develops and distributes a commercial version of the software called pfSense Plus that is more robust and supportable than the community edition.
