

New Paradigm Institute Announces Livestream of Inaugural UFOs/UAP Global Disclosure Day on October 20th

NPI's Global Disclosure Day event aligns with a key milestone in UFOs/UAP disclosure and will feature leading voices in the global movement for transparency.

WASHINGTON, DC, UNITED STATES, October 15, 2024 /EINPresswire.com/ -- The [New Paradigm Institute](#) (NPI) is set to host the first-ever [Global Disclosure Day](#) on Sunday, October 20, 2024, with a two-hour livestreamed event that promises to bring together advocates and experts dedicated to advancing the cause of Unidentified Anomalous Phenomena (UAP) disclosure.

[Citizens for Disclosure](#) (CfD), NPI's

grassroots initiative launched in February 2024, will spearhead the event, with CfD chapters across 43 states and several countries hosting local watch parties to amplify the message. Inspired by the establishment of Earth Day in 1970, the event intends to celebrate humanity's Cosmic Moment — the reality that we are not alone and that nonhuman intelligence exists and has been interacting with our planet for some time. The event will showcase an impressive lineup of speakers, video presentations, and testimonials from government whistleblowers, experts, and grassroots activists, aiming to highlight the latest developments in the movement for UAP transparency.

"We are at a pivotal moment in the history of the UFOs/UAP movement," said Dr. Jim Garrison, Director of NPI's Washington, D.C. Office, who is coordinating the event. "The burden of proof has shifted. It's no longer about proving that UAP exist; it's now up to those who kept this information secret for so long to prove that UAP don't exist. We are entering a new era."

The Global Disclosure Day event is specifically timed to coincide with an important deadline mandated by the National Defense Authorization Act for Fiscal Year 2024 (NDAA). The NDAA requires federal agencies to gather their UAP-related records by October 20, 2024, for review and potential transmission to the UAP Records Collection at the National Archives and Records

The burden of proof has shifted. It's no longer about proving that UAP exist; it's now up to those who kept this information secret to prove that UAP don't exist. We are entering a new era."

*Jim Garrison, Director of NPI's
Washington, D.C. Office*

Administration by September 30, 2025.

Global Disclosure Day aims to celebrate the progress made toward revealing what various U.S. government agencies have discovered about UAP after decades of investigation. The event also serves as a rallying call for continued action, urging people worldwide to advocate for full transparency.

"Public involvement is crucial for achieving comprehensive disclosure," said Danny Sheehan, NPI's General Counsel. "We want to remind everyone that the journey is far from

over, and the fight for truth is just beginning."

Details:

Global Disclosure Day will begin livestream at 1:00 PM Eastern Daylight Time (North America) on October 20, 2024.
