

EDRM Announces Ralph Losey's New Podcast, "Echoes of AI"

The Podcast Will be Syndicated on the EDRM Global Podcast Network

MINNEAPOLIS, MN, UNITED STATES, October 15, 2024 /EINPresswire.com/ -- EDRM announced that it is syndicating Trusted Partner [Losey AI, LLC](#)'s new podcast, "Echoes of AI" on The EDRM Global Podcast Network.

This cutting-edge podcast is based on the blogs of leading AI expert Ralph Losey, with anonymous AI podcasters discussing the blogs. "Echoes of AI" will be syndicated on the EDRM Global Podcast Network.

Echoes of AI is a groundbreaking new series by Ralph Losey that was created entirely by artificial intelligence.

“

Ralph blogs about the possibilities and impacts of AI, and this podcast provides us an “aha” moment.”

Mary Mack, CEO and chief legal technologist for EDRM

From the lifelike voices to the dynamic conversations, everything in this new podcast series is AI-generated, delivering an experience that sounds just like human dialogue. But make no mistake—every element is powered by AI, hence the name Echoes of AI.

Echoes of AI is powered by Google’s cutting-edge Gemini 1.5 Pro and the experimental NotebookLM, blending AI-driven voice generation with dynamic content creation. Each episode is built on curated source materials from Ralph Losey or EDRM, with accuracy checks performed before publication. We’re confident the results are as fascinating as they are innovative, and we invite you to experience the future of podcasts.

The inaugural episode dives into Ralph Losey’s thought-provoking article, "[Loneliness Pandemic: Can Empathic AI Friendship Chatbots Be the Cure?](#)". The entire episode, from the interactive

banter to the voices, was generated exclusively by Gemini 1.5 Pro based on the content of the article. These AI-generated voices mimic natural human conversation, delivering an immersive and lifelike podcast experience. While Ralph made no modifications to the AI-generated content, he conducted a thorough review to ensure accuracy and reliability.

"I'm somewhat frustrated by my AI hosts' complete inability to pronounce my last name, but I'm used to that from humans, too," laughed Ralph Losey. "They got the important stuff right."

Listen to the [inaugural episode of the Echoes of AI Podcast here](#). The first episode explores Ralph's post on the loneliness pandemic and how a friendship bot, like the one he created, surprisingly, can help mitigate loneliness.

Among the EDRM opportunities and resources available to partners like Losey AI, LLC are the ability to connect, network, and contribute via EDRM projects and events, share their service and product offerings, and enhance brand awareness to a global community.

The EDRM community of knowledgeable, multidisciplinary professionals is building resources to enhance e-discovery, privacy, security, and information governance frameworks, processes, and standards.

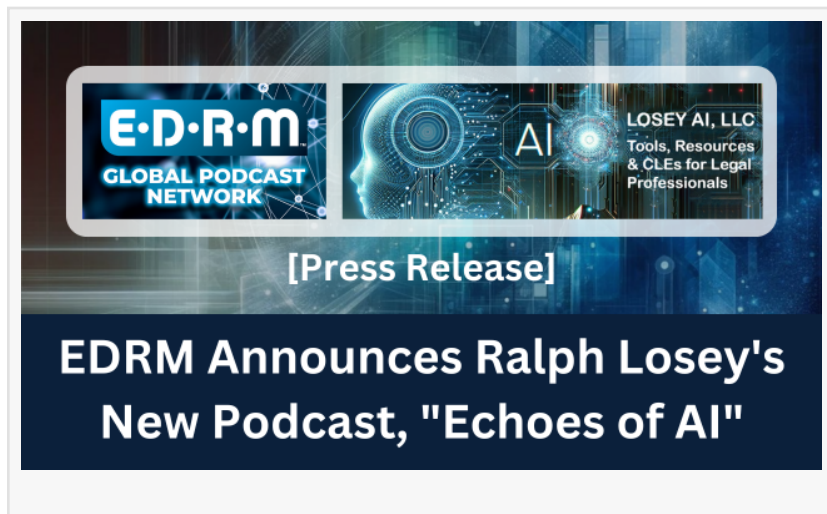

"Ralph Losey made an app to generate a panel of experts with ChatGPT," said Mary Mack, CEO and chief legal technologist for EDRM. "Using Google's NotebookLM, he has a point-counterpoint discussion for those who prefer lively audio discussions over reading. Ralph blogs about the possibilities and impacts of AI, and this podcast provides us an "aha" moment."

As a Trusted Partner, Losey AI, LLC has access to the EDRM community, comprising 33% corporations, 30% law firms, and 23% software and service providers, 12% governments, with the remaining 2% being a mix of educators, students, judges, and media in 145 countries spanning six continents.
