

Buy Now Pay Later Market Driven by 45.7% CAGR, Anticipating Revenue of USD 3.98 Tn by 2030: Afterpay, Klarna Bank AB

Buy Now Pay Later Market Driven by 45.7% CAGR, Anticipating Revenue of USD 3.98 Tn by 2030: Afterpay, Klarna Bank AB

NEW CASTLE, DE, UNITED STATES, October 16, 2024 /EINPresswire.com/ -- The main purpose of buy now pay later is to eliminate the need to make payment for items at the buying time. In addition, numerous benefits provided by buy now pay later include, high security, hassle free transaction, faster transaction processing speed and others. Furthermore, rise in penetration of online payment across the globe and growth in the e-commerce industry in emerging countries are the major factors driving the [buy now pay later market](#) growth.

According to the report published by Allied Market Research, the global buy now pay later market generated \$90.69 billion in 2020 and is projected to reach \$3.98 trillion by 2030, witnessing a CAGR of 45.7% from 2021 to 2030. The report provides a detailed analysis of changing market dynamics, top segments, value chain, key investment pockets, regional scenario, and competitive landscape.

Affordable and convenient payment services of buy now pay later platforms and growth of the e-commerce industry across the globe drive the growth of the global buy now pay later market. However, high late and returned payment fees restrain the market to some extent. On the other hand, increase in demand for delayed payments for online purchases and an upsurge in spending on luxury products among the adult population present new opportunities in the upcoming years.

COVID-19 Scenario:

The buy now pay later payment platform has significantly increased during the COVID-19 pandemic due to the rise in purchasing the consumer goods through online channels to prevent spread of Covid-19.

Major payment solution providers such as Visa and MasterCard have announced their partnership to offer affordable installment financing services, which accelerate the growth of the market during the pandemic outbreak.

Increase in customer spending on health treatment, rise in cost of luxury electronic products, and increase in use of online payments services are some of the important factors that boost the growth of the buy now pay later market during the COVID-19 outbreak.

The report offers detailed segmentation of the global buy now pay later market based on channel, end user, application, and region. Based on channel, the online segment held the highest market share in 2020, holding more than four-fifths of the total market share, and is expected to continue its leadership status during the forecast period. However, the PoS segment is estimated to register the highest CAGR of 49.0 % from 2021 to 2030.
