

## Construction Lasers Market Segments, Drivers, Restraints, And Trends For 2024-2033

The Business Research Company's Construction Lasers Market Segments, Drivers, Restraints, And Trends For 2024-2033

LONDON, GREATER LONDON, UNITED KINGDOM, October 17, 2024 /EINPresswire.com/ -- The construction lasers market has experienced robust growth in recent years, expanding from \$2.7 billion in 2023 to \$2.86 billion in 2024 at a compound annual growth rate (CAGR) of 5.9%. The growth in the historic period can be attributed to smart city initiative, increasing investment in research and development, expansion of the construction industry in emerging

Construction Lasers Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

markets, focus on sustainable and green construction practices, demand for compact and portable laser solutions, increasing applications in interior construction.

What Is The Estimated Market Size Of The Global Construction Lasers Market And Its Annual Growth Rate?

It will grow to \$3.5 billion in 2028 at a compound annual growth rate (CAGR) of 5.2%."

The Business Research

Company

The construction lasers global market is projected to continue its strong growth, reaching \$3.5 billion in 2028 at a compound annual growth rate (CAGR) of 5.2%. The growth in the forecast period can be attributed to integration with building automation systems, rise in prefabricated construction, expansion of mixed-reality construction, focus on safety features, use in large-scale

industrial construction. Major trends in the forecast period include growing adoption of advanced technologies, integration of laser technology with building information modeling (bim), advancements in laser measurement technologies, automated and robotic solutions, shift toward digital construction workflows.

Growth Driver Of The Construction Lasers Market

The rising construction industry is expected to propel the growth of the construction laser market going forward. The construction industry deals with creating, maintaining, and repairing infrastructure. The rise in the construction industry increases the demand for construction lasers as they are useful for various tasks and procedures carried out on a building site, including rehabilitation, assembly, obtaining accurate measurements (rangefinder function) when installing any plumbing systems, and many others.

Which Market Players Are Steering The Construction Lasers Market Growth?

Key players in the market include Stanley Black & Decker Inc., Hilti Corporation, Kapro Industries Ltd., PLS Pacific Laser Systems LLC, Robert Bosch Gmbh, Hexagon AB, Trimble Inc., Leica Geosystems AG, Spectra Precision Lasers LLC, Johnson Level & Tool Mfg Co. Inc., Stabila Messgeräte Gustav Ullrich GmbH, Fluke Corporation, Pacific Laser Systems LLC, Sokkia Co. Ltd., Dewalt company Ltd., Makita Corporation, Milwaukee Electric Tool Corporation, Laser Alignment Inc., Greenlee Tools LLC, CST/Berger Corporation, Geomax International AG, Topcon Corporation, Laserliner Messtechnik GmbH, Firecore Laser Systems, Nivel System, Laser Technology Inc.

What Are The Key Trends That Influence <u>Construction Lasers Market Share</u> And Analysis? Technological advancements are the key trends gaining popularity in the construction lasers market. Major companies operating in the market are focused on developing new technological solutions to strengthen their position in the market.

How Is The Global Construction Lasers Market Segmented?

- 1) By Type: Rotary Level Laser, Linear Laser Level, Plumb/Dot Laser, Other Types
- 2) By Range: 1 ft. To 100 ft., 101 ft. To 200 ft., 201 ft. And Above
- 3) By Application: Commercial, Residential

Geographical Insights: North America Leading The Construction Lasers Market Asia Pacific was the largest region in the construction lasers market in 2023. The regions covered in the construction lasers global market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

Construction Lasers Market Definition

Construction lasers refer to a tool that uses a continuous laser beam to generate a solid line at a

level point on both horizontal and vertical surfaces, doing away with the need to draw a yardstick or fictitious line to link the lines.

Construction Lasers Global Market Report 2024 from <u>The Business Research Company</u> covers the following information:

- Market size data for the forecast period: Historical and Future
- Macroeconomic factors affecting the market in the short and long run
- Analysis of the macro and micro economic factors that have affected the market in the past five years
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

An overview of the construction lasers global market report covering trends, opportunities, strategies, and more

The Construction Lasers Global Market Report 2024 by The Business Research Company is the most comprehensive report that provides insights on <u>construction lasers market size</u>, construction lasers market drivers and trends, construction lasers market major players, construction lasers competitors' revenues, construction lasers market positioning, and construction lasers market growth across geographies. The construction lasers global market report helps you gain in-depth insights into opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.

What Does The Business Research Company Do?

The Business Research Company publishes over 15,000 reports across 27 industries and 60+ geographies. Our research is powered by 1,500,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. We provide continuous and custom research services, offering a range of specialized packages tailored to your needs, including a Market Entry Research Package, Competitor Tracking Package, Supplier & Distributor Package, and much more.

Our flagship product, the Global Market Model is a premier market intelligence platform delivering comprehensive and updated forecasts to support informed decision-making.
