"The Liberation of the Earth" presents a powerful story about the divine authority of Jesus Christ and the role of His believers in transforming the world. The book draws on

scripture and theological insights to explain how Jesus, after His resurrection, declared, "All authority has been given to Me in heaven and on earth." From that pivotal moment, the light of God has been increasing on Earth, signaling the most extraordinary time for the Church.

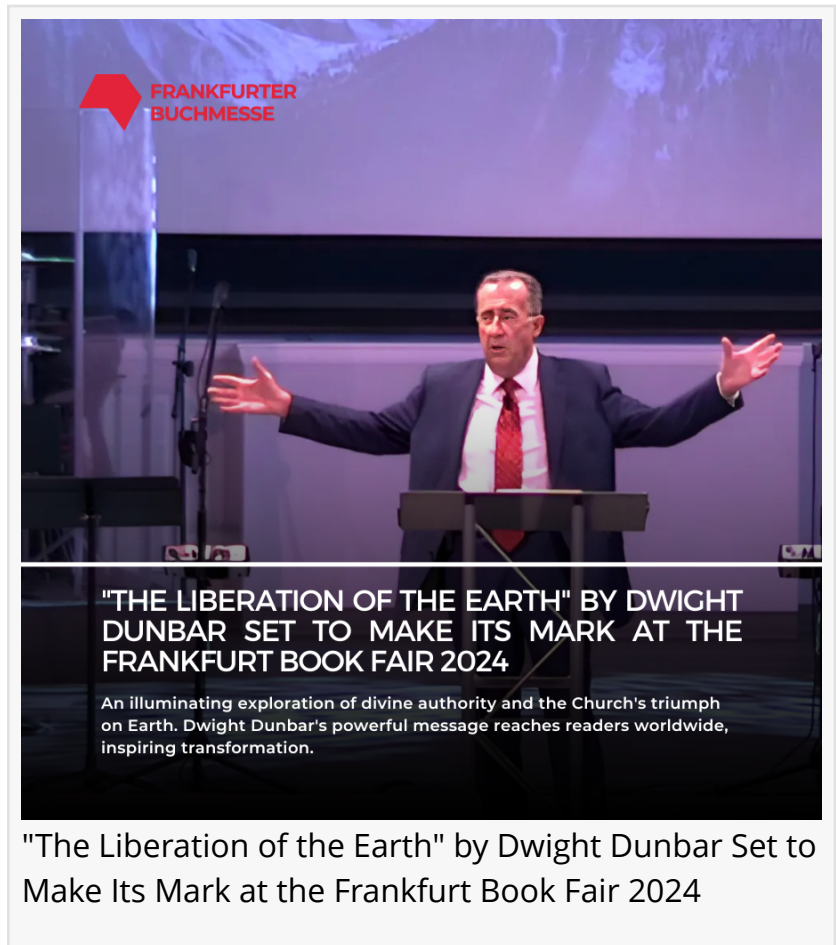

Dunbar's work emphasizes the victory Jesus has secured over death and the devil in the eternal realm, and how His spirit now dwells within His believers. This book challenges readers to recognize that the time has come for the Church to arise, shine, and secure victory in the temporary realm, fulfilling the prophecy that "the earth will be filled with the knowledge of the Lord as the waters cover the sea."

The central theme of "The Liberation of the Earth" revolves around the concept that all of creation is eagerly waiting for the "revealing of the sons of God." Dunbar argues that this revelation is happening right now, marking a monumental shift where the body of Jesus Christ on Earth is no longer intimidated or silent. Through powerful references to Isaiah 60, Dunbar stresses the message of hope and victory: "Arise, shine—your light has come! And the glory of

the Lord is risen upon you.”

Dunbar’s book is a rallying cry for believers worldwide to step into their divine calling and usher in an era of spiritual liberation. With death and darkness being overcome by the light and life of Christ, Dunbar envisions a world where mortality is swallowed by life, and the earth is filled with the glory of God.

As "The Liberation of the Earth" is set to be showcased at the Frankfurt Book Fair, readers and attendees can expect an engaging and intriguing exploration of Christian faith, divine authority, and the future of humanity. Dunbar’s insights offer readers a sense of empowerment, urging them to recognize the authority they carry as believers in Jesus Christ and to be active participants in the transformation of the world.
