

# The Transformative Value of a 1-Hour Doctor Visit: Dr. Rena Malik's Commitment to Personalized Urologic Care

*Expert Urologist Providing Personalized Care for Bladder Health, Sexual Health & Beyond*

IRVINE, CA, UNITED STATES, October 17, 2024 /EINPresswire.com/ -- In today's fast-paced healthcare landscape, it's easy for patients to feel rushed or dismissed. [Dr. Rena Malik](#), a board-certified urologist and expert in pelvic surgery, is trying to change that.

With a focus on personalized care, she's helping people feel more seen and heard, even when dealing with intimate topics such as sexual and urologic health.

When a doctor takes the time to listen, it enables a more individualized approach to healthcare. Doctors can tailor their care to each individual's unique needs, medical history, and lifestyle. This tailored approach has been shown to lead to better health outcomes, as patients are more likely to understand their conditions and be empowered to take an active role in managing their health.

By educating themselves and their families, patients can make informed decisions about their care and take steps to prevent illness, manage chronic conditions, and seek medical attention when needed. [Research](#) has demonstrated that longer, more in-depth visits between doctors and patients result in improved health outcomes.

Dr. Rena Malik

RENA MALIK, MD

By taking the time to listen and educate, we can address the complex and intimate aspects of sexual and urologic health with the sensitivity and expertise they require."

As Dr. Malik celebrates the one-year anniversary of launching her unique urologic practice, "Rena Malik, MD," in Irvine & Beverly Hills, California, she reflects on the transformative impact her approach has had on patients. This milestone marks a year of providing personalized, patient-focused care in bladder health, sexual health, pelvic pain, low testosterone and menopause.

"Seeing a doctor for an hour can have a profound impact on one's health. By taking the time to listen and educate,

we can address the complex and intimate aspects of sexual and urologic health with the sensitivity and expertise they require," said Dr. Malik. "Our goal is to ensure that every patient gets the care and attention they deserve."

One of the core reasons Dr. Malik structured her practice to prioritize time with patients is to avoid the pressures and constraints often imposed by external factors such as insurance requirements. By doing so, she can focus on providing comprehensive care without the rush, allowing her to delve into the intricacies of each patient's condition.

One of the key benefits is the strong, trusting relationship that develops between Dr. Malik and her patients. This allows patients to feel comfortable and empowered to take an active role in their care, making healthy lifestyle choices and exploring non-pharmacologic and non-surgical therapies to manage their conditions with confidence.

Dr. Malik is dedicated to dispelling health misconceptions and addressing taboo topics such as sexual dysfunction, erectile issues, and bladder health. She recognized a significant lack of understanding about sexual health among patients and the general public, leading her to create educational content on social media to fill this gap. Her approach is not just about treating medical conditions but also about educating patients to take control of their health.

Dr. Malik has been recognized for her clinical excellence, including being named Top Doctor between 2019 and 2022 by Baltimore Magazine for Urology and Urogynecology as well as the American Urological Association Young Urologist of the Year in 2023. Her extensive educational content, including viral YouTube videos with over 300 million views, has made her a leading voice in urology and sexual health.
