

Northeast Health Services Expands Care with TMS Therapy at Lowell Clinic

Northeast Health now offers TMS therapy at Quincy clinic, an FDA-cleared, non-invasive treatment for depression, anxiety, and OCD, covered by most insurances.

LOWELL, MA, UNITED STATES, October 31, 2024 /EINPresswire.com/ -- Northeast Health Services is pleased to announce that [Transcranial Magnetic Stimulation \(TMS\)](#) therapy is now being offered at its [Lowell](#) clinic, expanding comprehensive mental health services to better serve the local community. This cutting-edge, non-invasive treatment is renowned for its effectiveness in managing symptoms of depression, especially for patients who have not seen improvements with traditional therapies.

Northeast Health Services uses NeuroStar to provide Transcranial Magnetic Stimulation (TMS) as an option for our clients. TMS is a safe, effective, non-drug treatment for major depression without the common side effects of medication. It is FDA-cleared to treat depression, depression with anxiety, and OCD. Most major insurances cover NeuroStar TMS, including Medicare and Tricare plans nationwide.□

More than 6.4 million NeuroStar TMS therapy treatments have been performed in over 175,000 patients, and less than five percent of clients reported any side effects. The most common side effect is a headache right after TMS treatment, which goes away after the first week of sessions for most people.□

Northeast Health Services is proud to offer a full suite of mental health services including therapy and psychiatric medication management and alternative treatment options like NeuroStar TMS. This collaborative, multidisciplinary approach allows our team to create an individualized treatment plan that is tailored to you.□

A patient first meets with the Northeast Health Services team for a consultation to determine their eligibility for TMS treatment. Depending on the provider's recommendation, a typical TMS treatment plan includes 36 sessions that each last between 19-37 minutes. Completing the full treatment course gives the best chance for delivering long-lasting relief from depression.□

The Lowell clinic is now accepting both new and existing patients for TMS therapy evaluations. For more information or to schedule an appointment, please contact Northeast Health Services at (413)-846-1848 or visit our website at <https://nehs.transformationsnetwork.com/schedule-appointment/>.
