

Infinity by A.L.P.S. Wins Bronze in A' Architecture Awards

*Innovative Mobile Architecture Design
Recognized for its Adaptability and
Ecological Approach*

COMO, CO, ITALY, October 18, 2024
/EINPresswire.com/ -- The A' [Design Award](#), a highly respected award in the field of [architecture](#) design, has announced Infinity by [A.L.P.S.](#) as the Bronze winner in the Architecture, Building and Structure Design category. This prestigious recognition highlights the significance of Infinity's innovative design within the architecture industry.

Infinity's adaptable and eco-friendly design aligns with the growing trend of sustainable architecture that responds to the needs of modern society. By providing a lightweight, mobile, and customizable solution for future residences, Infinity offers practical benefits for users seeking a balance between urban living and a connection to nature.

The retractable skeleton developed by A.L.P.S. sets Infinity apart, offering convenience in transportation and construction while allowing for flexibility in adapting to various terrains. The use of customized exterior components and facade materials ensures both adaptability and comfort in different environments, making Infinity a versatile and practical design solution.

This recognition from the A' Architecture, Building and Structure Design Award serves as motivation for the A.L.P.S. team to continue pushing the boundaries of architectural design. By exploring innovative materials and construction methods, such as the use of aircraft-grade aluminum panels, A.L.P.S. aims to create rapid, cost-effective, and high-quality living spaces that can be placed anywhere in the world.

Project Members

Infinity was designed by a talented team at A.L.P.S., including Jie Tang and Wenbiao Du, who founded the company, as well as Donglai Zhou, Qiuwen Wei, Qiuliang Lan, Weiyang Wang, and Tian Zhen, each contributing their expertise to the project's success.

About A.L.P.S.

Founded in Guangzhou, China, in 2021 by Jie Tang and Wenbiao Du, A.L.P.S. (Architecture Lab Production Studio) integrates architecture with landscape, interior, and other design fields, connecting it with larger industrial manufacturing systems. The company aims to create pioneering architectural designs that combine artistic aesthetics and technological innovation, viewing architecture as both a work of art and an industrial product.

About Bronze A' Design Award

The Bronze A' Design Award recognizes designs that demonstrate creativity, practicality, and the potential to positively influence industry standards in the Architecture, Building and Structure Design category. Judged on criteria such as innovative use of space, structural integrity, aesthetic appeal, and environmental impact, Bronze winners showcase a blend of form and function that enhances people's lives and well-being through professional execution and attention to detail.

About A' Design Award

The A' Design Award is an international, juried design competition organized annually since 2008 across all industries, welcoming entries from all countries. The award's mission is to recognize and promote superior products and projects that advance and benefit society, ultimately contributing to creating a better world. Through a rigorous blind peer-review process, entries are evaluated by an expert jury panel based on pre-established criteria. By celebrating remarkable achievements and showcasing pioneering designs on a global stage, the A' Design Award inspires and drives the cycle of innovation in pursuit of good design principles.
