

Feng Yong Chao Yang by Wang Dan and Zhang Jiyu Wins Bronze in A' Real Estate, Building and Construction Industry Awards

Hangzhou Green Development Design's Residential Community Project Recognized for Architectural Excellence and Innovation

COMO, CO, ITALY, October 18, 2024 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [real estate](#) design, has announced Feng Yong Chao Yang by [Wang Dan and Zhang Jiyu](#) as the Bronze winner in the Construction and Real Estate Projects Design category. This prestigious recognition highlights the significance of the project within the real estate industry, positioning it as a notable example of architectural excellence and innovation.

Feng Yong Chao Yang's award-winning design showcases the project's relevance to current trends and needs within the real estate industry. By prioritizing the internal spatial experience and creating a secluded garden-style community in the heart of the city, the design aligns with the growing demand for serene and natural living environments amidst urban settings. The project's thoughtful integration with its surroundings and consideration for future urban development plans demonstrate its adherence to industry best practices and standards.

The residential community's design stands out for its unique blend of aesthetics and functionality. The iconic building facades, adorned with expansive glass curtain walls and aluminum panels, evoke the image of a clear lake cascading from the sky, creating a visually striking and timeless appearance. The strategic use of materials, such as stone claddings and paint in specific areas, ensures both the quality and aesthetic appeal of the buildings. The
