

# Nelpx GmbH: Expansion into New Business Areas and Ambitious Future Plans

*Nelpx is focusing on Artificial Intelligence, the Internet of Things, Smart City solutions, & IT security*

STUTT GART, BADEN WUERTTEMBERG, GERMANY, October 18, 2024 /EINPresswire.com/ -- Nelpx GmbH is on an expansion course and is gearing up for the future. With a clear vision and a strategic extension of its business areas, Nelpx aims to establish itself as a market leader in several key technologies in a short time. The company is focusing on [Artificial Intelligence](#), the Internet of Things, Smart City solutions, and IT security.

The continuous development of technologies and the growing needs of our customers require innovative and well-thought-out solutions. Nelpx is aware of this and has made it its mission to actively support companies on their path to a digital future. The focus is not only on providing high-quality technologies but also on tailoring solutions to the specific needs of each customer.

Nelpx pursues a clear growth strategy focused on new business areas.

Expanding its competencies allows us

to offer even more comprehensive solutions and actively drive digitalization in companies. With tailor-made concepts and the expertise of our specialists, we provide real added value and

secure decisive competitive advantages for our customers.

### Europe's Largest Portfolio of Future Technologies

Nelpx GmbH's goal is to offer the largest European portfolio in Artificial Intelligence, IoT, Smart City, and IT Security. This extensive portfolio is based on a carefully selected group of manufacturer partners who meet the highest quality standards. Thanks to this meticulous selection of partners,

Nelpx is capable of providing a complete solution for the [IT procurement](#) needs of its customers. Our approach is fast, smart, and sustainable—exactly what companies need today and in the future.

Nelpx CyberShot

Our expertise includes both innovative hardware and specialized software solutions tailored to the needs of our customers. This means we constantly evolve our products and services, integrating new technologies to meet the ever-changing requirements of the market. By expanding our portfolio, we ensure that we always offer the best solutions and support our customers on their journey towards digital transformation.

In addition, Nelpx places great importance on selecting sustainable and energy-efficient technologies. This is a vital part of our corporate philosophy and is reflected in our partnerships. We aim to ensure that technological advancement benefits not only the economy but also the environment. For this reason, we continuously invest in research and development to promote forward-thinking and environmentally friendly solutions.

### Exclusive Community Forum: TuringBoard

Nelpx goes beyond the traditional technology distribution model and presents TuringBoard, the first exclusive community forum for professionals, manufacturers, companies, and service providers focused on new technologies. Named after the pioneer of computer science, Alan Turing, TuringBoard offers a platform for discussions on the use of Artificial Intelligence and other [innovative technologies](#) in companies. This community not only creates space for discussions and knowledge transfer but also promotes collaboration between leading minds in the industry, enabling trends to be identified and implemented at an early stage.

TuringBoard acts as an incubator for innovative ideas and as a point of contact for companies looking to implement new technologies. Through direct exchange with experts from various sectors, community members can push their projects forward and gain valuable insights for their business strategies. The platform also facilitates targeted training and workshops, promoting knowledge transfer and enhancing the competencies of its members. Another goal of TuringBoard is to strengthen networking within the industry. Companies today

face numerous challenges, and digitalization often presents complex requirements. Through open exchange within TuringBoard, solutions can be developed collectively, benefiting not only the companies involved but also enhancing the entire industry's capacity for innovation. This collaborative approach sets Nelpx apart from other providers and positions the company as a pioneer in technology communities.

#### Our Mission: Smart Solutions for a Connected World

Nelpx GmbH relies on innovative approaches to provide real added value to its customers. The focus is on the ability to provide complete IT procurement solutions that are individually tailored and technologically leading. With a strong partner network and a clear commitment to innovation, Nelpx has the best prerequisites to drive growth in new business areas and bring about lasting change in the industry.

Nelpx firmly believes that the future of technology is not only in the availability of modern solutions but also in the collaborative and open exchange between companies, manufacturers, and users. TuringBoard is an essential part of this mission, offering a unique platform for networking and knowledge sharing.

Our mission is to make the world more connected through technology and help our customers leverage the full potential of digitalization. We achieve this through a holistic approach that places customer needs at the forefront, enabling them to make their business processes more efficient and future-proof. Nelpx sees itself not only as a supplier but also as a partner that stands by its customers for the long term, working together to master the challenges of digital transformation.

#### About Nelpx GmbH

Nelpx GmbH is an emerging company in the field of IT technology and procurement. With a clear focus on Artificial Intelligence, IoT, Smart City, and IT security, Nelpx offers innovative solutions that help companies successfully face the challenges of digital transformation. Together with selected partners and a community of experts, Nelpx is working to make IT procurement smarter, faster, and more sustainable.

In addition to classic IT product procurement, Nelpx offers comprehensive consulting services that help companies make their IT infrastructure future-proof. Our team of experienced experts analyzes individual requirements and develops tailor-made concepts that meet our customers' needs. Through regular training and workshops, we ensure that our customers are always up to date with the latest technologies and can make the most of digital opportunities.
