Definition:

Inland marine insurance covers property and goods in transit over land, as well as specialized equipment and movable property that is not tied to a specific location. It was originally developed to protect goods transported via ship but has since expanded to include a wide range of industries, such as construction, logistics, and telecommunications. The policy offers coverage for various forms of property, including cargo, fine art, and construction equipment. The growing demand for protection against risks associated with transportation, construction, and other dynamic industries drives this market.

Dominating Region:

- North America

Fastest-Growing Region:

- Asia-Pacific
