

# Joynd Launches Joynd Portal 3.0: A Zero-Code Integration Solution for Background Screening and Assessment Vendors

*Joynd Portal 3.0: A Zero-Code Integration Solution for Background Screening and Assessment Vendors Launched to effortlessly deploy ATS integrations*

ORLANDO, FL, UNITED STATES, October 23, 2024 /EINPresswire.com/ -- Joynd, a leader in HR technology integrations, is excited to announce the public launch

of Joynd Portal 3.0, a zero-code front-end platform designed for background screening and assessment vendors to effortlessly deploy Applicant Tracking System (ATS) integrations. This new release offers vendors the ability to manage integrations efficiently, eliminating the need for development work or specialized ATS knowledge.

By reducing the costs typically associated with integrations and introducing a new pricing model, Joynd Portal gives vendors access to faster, more cost-effective solutions for their customers."

*Paul Mladineo*

Traditionally, ATS integrations have required significant technical expertise, time, and effort. With Joynd's extensive background in building hundreds of integrations for HR vendors, the company has leveraged this expertise to develop a user-friendly, self-serve platform to streamline the integration process. Joynd Portal solves the complexities of ATS integrations, enabling vendors to quickly offer and deploy business-critical integrations to their clients.

"After years of creating innovative solutions for HR

integrations, we are proud to introduce Joynd Portal as game-changing technology for screening vendors," said Paul Mladineo, President and Chief Revenue Officer at Joynd. "This new platform offers an approach that empowers vendors to control, manage, and deploy integrations themselves, directly, without the need for IT personnel or coding expertise."

Key Features of Joynd Portal 3.0:

- Control: Vendors have full control over integrations from order to deployment to support,

ensuring a smooth and efficient process.

- **Visibility:** The platform provides transparency into integration portfolios, offering insights into ongoing and completed integrations.
- **Security:** Built with data security in mind, only authorized users can access and manage sensitive information.
- **Cost Efficiency:** By reducing the costs typically associated with integrations and introducing a new pricing model, vendors now have access to faster, more cost-effective solutions for their customers.

Joynd Portal's capabilities will expand soon to serve other types of HR technology providers, providing more vendors with the opportunity to enhance customer engagement, increase solution usage, and win new clients without the technical burden.
