## Growth Driver Of The Content Delivery Network Market

The rising use of the internet and smart devices is expected to drive the growth of the content delivery network market. The number of smartphone users has surged globally, thanks to the convenience and range of services they offer. These services provide door-to-door solutions, enhancing user convenience. Smartphones have internet access, enabling users to engage with various social media applications where content is generated and uploaded every second. According to Bankmycell, a buyback mobile store in the USA, there were 6.648 billion smartphone users worldwide in 2022, accounting for 83.89% of the global population.
