The global sorbitol market size is expected to grow at 6.20% CAGR from 2024 to 2032. It is expected to reach above USD 2.48 billion by 2032 from USD 1.47 billion in 2024. Because more people are using diabetic and dietetic

foods and beverages, the market is anticipated to increase significantly over the course of the projected period. Over the coming years, demand for the product is also anticipated to be driven by its increasing use as a sugar alternative in consumer food goods. Because it metabolizes more slowly than other sugar alcohols, sorbitol is also being used more and more in oral care products to combat dental issues like cavities and tooth decay. Over the course of the forecast period, the advantages of the same are anticipated to drive industry expansion.

This Report lets you identify the opportunities in Sorbitol Market by means of a region:

North America (the United States, Canada, and Mexico)

Europe (Germany, UK, France, Italy, Russia, Turkey, etc.)

Asia-Pacific (China, Japan, Korea, India, Australia, and Southeast Asia (Indonesia, Thailand, Philippines, Malaysia, and Vietnam)) South America (Brazil etc.)

The Middle East and Africa (North Africa and GCC Countries)

The market is primarily driven by the food and beverage industry's increasing need for nutritive sweeteners. The U.S. market is anticipated to grow even more if safety regulatory and human health organizations like the FDA and the U.S. Department of Agriculture (USDA) approve the product's use in medications and baked goods. Because the nation is home to one of the largest pharmaceutical industries, sorbitol is also used as a humectant in pharmaceutical products, which contributes to the product's growth. Therefore, during the predicted period, it is also expected that the demand for sorbitol will rise.
