

# JIRIS Unveils AI-Powered Homecare Software at 2024 Home Care and Hospice Conference and Expo

*Jiris debuts its AI-powered homecare software at the 2024 NAHC Conference, showcasing the innovative solutions to streamline caregiver scheduling.*

TAMPA, FL, UNITED STATES, October 22, 2024 /EINPresswire.com/ -- [Jiris](#), a cutting-edge [homecare software](#)

solution, is thrilled to announce its official launch at the 2024 Home Care and Hospice Conference and Expo, hosted by the National Association for Home Care & Hospice (NAHC) in Tampa, Florida. With a mission to revolutionize homecare management, Jiris introduces advanced AI capabilities designed to streamline operations and enhance patient care.

## AI-Powered Innovation Meets Real-World Homecare Needs

Developed by a team with deep industry expertise, including the creators of RouteGenie - leading software for NEMT, Jiris brings a powerful AI assistant directly into the hands of caregivers and homecare administrators. The software simplifies complex tasks such as shift assignment, data retrieval, and decision-making, all while ensuring compliance with industry regulations.

"We're excited to debut Jiris at this year's NAHC Conference," said Managing Partner, Jonathon Anthon at Jiris. "Our goal is to empower caregivers with technology that enhances efficiency, allowing them to focus more on delivering exceptional patient care. The feedback we've received from early demos has been overwhelmingly positive, and we can't wait to showcase our AI-driven solution to the broader homecare and hospice community."

Attendees at the conference can visit Jiris at Booth #547. Visitors will experience firsthand how Jiris simplifies scheduling in just a few clicks, optimizes caregiver management, and improves patient outcomes through intelligent automation.

The Future of Homecare is Here

Jiris differentiates itself from other software solutions by focusing on the user experience and building upon lessons learned in the medical transportation sector. Its intuitive design ensures that caregivers and managers can adopt the technology seamlessly, while its AI assistant helps users find critical data and make informed decisions.

“We’ve seen how technology can transform industries,” said Jonathon Anthon, Managing Partner of Jiris. “With Jiris, we aim to take homecare to the next level by delivering a platform that not only meets the needs of today but anticipates the challenges of tomorrow.”

Connect with Jiris at the 2024 Home Care and Hospice Expo

Jiris is inviting all attendees to stop by Booth 547 for in-depth discussions and exclusive insights into the future of homecare management. For those unable to attend, demo requests can be submitted via the Jiris website at [jirishealth.com](https://jirishealth.com).

## About Jiris

Jiris is a next-generation [home care software solution](#) designed to streamline operations through AI-driven insights and automation. Built by industry veterans with extensive experience in the homecare and medical transportation sectors, Jiris offers a user-friendly platform that helps providers manage schedules, caregivers, and compliance efficiently. Jiris has operations in Western New York and South Florida and is committed to empowering the homecare community with innovative technology.
