AWARD WINNING DESIGN
BRONZE A' DESIGN AWARD

2024

Coziro

Coziro's award-winning design directly addresses the needs and challenges faced by helmet users, particularly in hot weather conditions or during prolonged use. By incorporating a unique sunroof design and an efficient ventilation system, Coziro aligns with the protective equipment industry's focus on enhancing user comfort and safety. This recognition underscores the practical benefits of Coziro for both individual users and the industry as a whole, showcasing its potential to influence future protective headwear designs.

The Coziro helmet stands out in the market through its meticulously designed features, which prioritize user comfort without compromising safety. The adjustable sunroof, featuring 25 vents in 8 directions, allows for personalized ventilation, with the ability to increase airflow by up to three times compared to traditional helmets. The streamlined shape, inspired by sports car design, reduces wind resistance and noise, ensuring a stable and comfortable ride. Additionally,

the ultra-sealing process prevents water intrusion during rainy or snowy conditions, showcasing Coziro's adaptability to various weather conditions.

Winning the A' Safety Clothing and Personal Protective Equipment Design Award serves as a powerful motivator for Hangzhou Bee Sports Co., Ltd. to continue pushing the boundaries of helmet design. This recognition validates their design philosophy of balancing comfort, user experience, and safety, and inspires them to further innovate and explore new ways to enhance protective headwear. By setting a high standard with Coziro, Hangzhou Bee Sports Co., Ltd. aims to positively influence the protective equipment industry and contribute to the development of even more advanced and user-centric designs in the future.

Coziro was designed by the talented team at Hangzhou Bee Sports Co., Ltd., including Chengfeng Lv, Weiwen Deng, Jun Yu, and Chengchao Lv, who collaborated to bring this innovative helmet to life.

About Bronze A' Design Award

The Bronze A' Design Award recognizes outstanding designs that demonstrate creativity, practicality, and the potential to positively influence industry standards. Recipients of this award have showcased their ability to effectively combine form and function, offering solutions that enhance user experiences and well-being. The Bronze A' Design Award is a prestigious recognition granted to designs that exhibit a high level of professionalism and innovation, as determined by a rigorous evaluation process based on pre-established criteria. Winning designs are acknowledged for their attention to detail, quality of life improvements, and contribution to creating a better world.

About A' Design Award

The A' Design Award is an international, juried design competition that has been recognizing and promoting superior products and projects since 2008. With a mission to make the world a better place through the power of good design, the A' Design Award celebrates remarkable achievements across all industries and countries. Entries undergo a rigorous blind peer-review process by an expert jury panel comprising design professionals, industry experts, journalists,

and academics. By showcasing pioneering designs on a global stage, the A' Design Award inspires and drives the cycle of innovation, ultimately contributing to the advancement and well-being of society.
