

Minisforum Next-Gen Mini PCs: The UM890 Pro and MS-01

FRANCE, October 23, 2024

/EINPresswire.com/ -- **Minisforum Unveils Next-Gen Mini PCs: The UM890 Pro and MS-01**

Minisforum is thrilled to announce the launch of two new additions to our Mini PC lineup: the UM890 Pro and the MS-01. These compact powerhouses are designed for users who desire high performance without sacrificing desk space.

The [Minisforum UM890 Pro](#) is a high-performance Mini PC featuring the latest AMD Ryzen™ 9 8945HS processor with Zen 4 architecture. This 8-core, 16-thread beast reaches a maximum clock speed of 5.2GHz and integrates the AMD Radeon™ 780M graphics, making it perfect for gaming and multitasking. With DDR5 dual-channel memory support up to 5600MHz and the ability to install two M.2 2280 PCIe 4.0 SSDs for up to 8TB of storage, the UM890 Pro is a force to be reckoned with. Its quad-screen display capability, thanks to HDMI 2.1, DP 1.4, and USB4 interfaces, offers a maximum resolution of 8K@60Hz / 4K@144Hz, providing a flexible workspace for professionals.

In contrast, the MS-01 [Mini Work Station](#) offers a sleek design with a focus on style and functionality. While details are light, the MS-01 promises to deliver a balance of performance and aesthetics, suitable for both home and office environments.

Both models come with a 24-month warranty, showcasing our commitment to quality and customer satisfaction. The UM890 Pro is currently available for pre-sale with shipments expected by the end of July, while the MS-01 is set to follow shortly.

Minisforum continues to push the boundaries of what's possible in compact computing. Join us in this journey towards a more powerful and efficient future with the UM890 Pro and MS-01.
