

# PixelFree Studio Recognized by Vue School as a Leading Development Tool

*PixelFree Studio Recognized by Vue School as a Leading Development Tool*

DELRAY BEACH, FL, UNITED STATES, October 24, 2024

/EINPresswire.com/ -- PixelFree Studio, the cutting-edge design-to-code tool, has been recognized by Vue School as a recommended tool for Vue.js developers. This recognition coincides with a special offer: a one-month free trial for Vue School members.

PixelFree Studio is revolutionizing the Vue development process by offering a seamless transition from design-to-code, and the process is simple:

“

We're excited to offer this trial to Vue School & confident that once developers experience how PixelFree Studio accelerates their Vue projects, it will become an indispensable part of their toolkit.”

*Philipp Geppert CEO, PixelFree Studio*

1. Design your project in PixelFree or Figma,
2. Convert your Design-to-Code in seconds, and
3. Deploy your project.

It's that easy! It's no wonder PixelFree is quickly becoming the go-to software for Vue developers around the globe, streamlining workflow and accelerating project completion. This endorsement aligns with Vue School's mission to provide cutting-edge education and resources to the Vue.js community.

"We're honored to be endorsed by Vue School," said Philipp Geppert, CEO of PixelFree Studio. "Our platform is designed to be a secret weapon for Vue developers, and this partnership with the premier educational academy for Vue.js is a testament to our commitment to the Vue community."

The platform offers educational resources, tutorials, and community support. These features can help developers at Figma, Microsoft, and Google to quickly adapt to the tool and leverage its full potential, reducing the learning curve and increasing adoption rates within their organizations.

The [patented](#) technology enables a system that significantly streamlines the UI development process, offering substantial benefits in terms of efficiency, flexibility, and consistency. For users

at Figma, Microsoft, and Google, this translates to faster development cycles, reduced costs, and improved cross-platform compatibility, all while maintaining control over their intellectual property and development processes.

Key features of PixelFree Studio include:

- o Instant conversion from PixelFree/Figma to Vue code
- o Code generation in Vue, HTML, and React
- o 100% deterministic code (no [AI](#))
- o Modular, reusable [components](#)
- o Flexible hosting options

"We're excited to offer this trial to the Vue School community," added Geppert. "We're confident that once developers experience how PixelFree Studio can accelerate their Vue projects, it will become an indispensable part of their toolkit."

About PixelFree Studio:

PixelFree Studio is at the forefront of design-to-code technology, offering a platform that converts designs into professional-grade code. With a focus on efficiency and sustainability, PixelFree Studio is reshaping the software development landscape for a greener future.

About Vue School:

Vue School is the leading educational platform for Vue.js, offering premium tutorials, video courses, and industry-leading certifications. In partnership with Vue.js creator Evan You, Vue School provides comprehensive training for developers at all skill levels, promoting Vue.js as an inclusive and powerful programming language for modern web development.

UNITED STATES PATENT AND TRADEMARK OFFICE  
**uspto** Demystifying the Patent Process

**August 30th 2023**  
**10 AM - 12 PM**

Are you an entrepreneur or technology company interested in protecting your intellectual property (IP)?

Join our Silicon Valley SBDC event, in collaboration with the United States Patent and Trademark Office (USPTO) to learn about the different types of patents, including utility, design, and plant. In this session USPTO experts will discuss the difference between provisional patent applications and non-provisional patent applications and their use. Get connect to pro bono services for your IP.

Martin Luther King, Jr. Library, 3rd FL  
150 E San Fernando St.  
San Jose, CA 95112

\*Free parking with validation is available at the Fourth Street Garage

Attendees will also learn about:

- The process of patent prosecution
- The role of patent examiners at the USPTO
- What to expect when working with the USPTO
- Resources available through the USPTO to protect your IP

LEARN HOW TO TURN YOUR  
IDEA INTO A STARTUP

### Shaping tomorrow's IP landscape

Some say that generative AI has demonstrated its worth by freeing valuable time for IP professionals to focus on more strategic aspects of patenting. R&D teams are exploring the benefits too. But before we welcome generative AI with open arms, we must consider the new horizon of IP challenges emerging.

Join us at IAM Live: IP and Emerging Technology USA 2024 as we explore how you can avoid the dangers, get the most out of AI tools both for patent teams and engineers and future-proof your innovations.

This year IAM is bringing together industry-leading corporate executives, legal professionals, and technology investors to the heart of Silicon Valley. Expand your knowledge during a day of in-depth discussion. Take away the essential strategic and commercial insight needed to thrive in a world of greater connectivity, automation and the widespread deployment of artificial intelligence.

We look forward to seeing you in San Jose in October.
