

From Social Media to Social Good: Literal Stacks Brings TikTok-Like Book Discovery to K12 Reading

A dynamic digital reading platform reimagines independent reading with engaging, student-focused book recommendations

PROVO, UT, UNITED STATES, October 25, 2024 /EINPresswire.com/ -- [Literal](https://www.literalapp.com/),

the all-in-one platform for digital classroom reading, is thrilled to announce the public beta release of [Literal Stacks](https://www.literalapp.com/) - a place for K12 students to quickly find, share, and read engaging stories through a familiar

vertical feed of personalized book recommendations. Borrowing from popular social media platforms like TikTok, YouTube Shorts, and Instagram Reels, Literal Stacks offers students an engaging, safe space to discover high-interest reading material, transforming what might be endless scrolling time into purposeful reading time.

“

You've never seen literature like this before...and your students may just love it.”

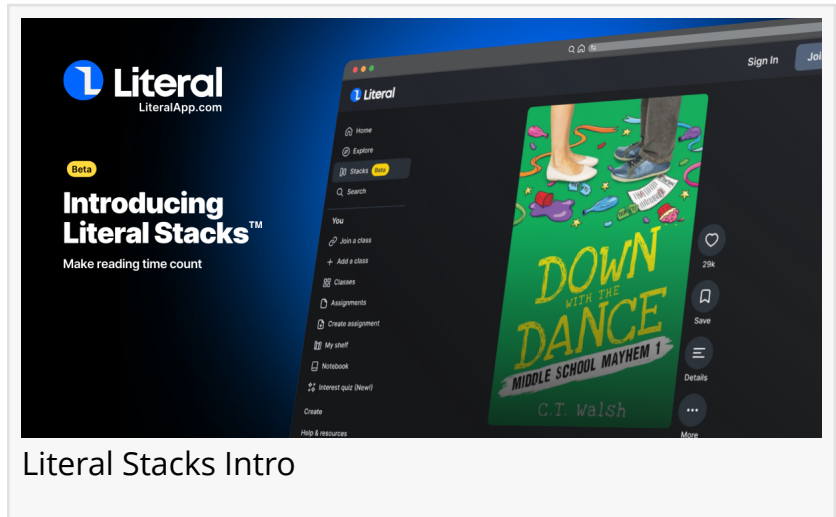

James Denby, Common Sense Education

Literal Stacks Brings Book Discovery into the 21st Century
The rising concerns about the effects of social media on adolescents' mental health and attention spans, coupled with the global decline in reading engagement, underline the need for tools that make reading as enjoyable and accessible as today's most popular apps. Literal Stacks is

designed to do just that, providing middle and high school students with a dynamic, personalized reading experience that encourages them to dive into stories on their own terms.

Empowering Student Choice and Engagement

Every time a student opens Literal Stacks, they're greeted with a customized "stack" of reading recommendations based on their interests, previously read titles, and social interactions within the platform, such as favorites, shares, and saved stories. The platform's adaptive recommendation system continually refines suggestions to fit each student's evolving interests,

Literal Stacks Intro

The popularity of apps like TikTok and Instagram Reels highlights a clear trend: today's students are captivated by the quick, scrollable feed. Literal Stacks embraces this trend and channels it toward educational ends. In a generation where social media has monopolized screen time, Literal Stacks redefines this engagement model to offer students a constructive, education-focused scrolling experience. Teachers can feel confident knowing their students are spending screen time exploring stories that capture their imaginations and expand their minds.

Access Anytime, Anywhere

Literal Stacks is available on tablets, phones, PCs, and Chromebooks, offering flexible access through LiteralApp.com and the Literal apps on iOS and Android. This cross-device compatibility means students can engage with reading wherever they are, making it easier than ever to integrate independent reading into daily routines.

About Literal

Literal is dedicated to fostering a new generation of engaged readers. Since its founding in 2019, Literal has expanded its reach to thousands of schools and districts worldwide, serving tens of thousands of educators and students. With a mission to create meaningful, impactful reading experiences in classrooms, Literal continues to innovate by developing tools that inspire curiosity, comprehension, and a lifelong love for reading.
