What Are The Top Drivers Contributing To The Growth Of The Radiology As A Service Market? The rising demand for telemedicine is anticipated to drive the growth of the radiology as a service market in the future. Telemedicine leverages telecommunications technology to deliver medical services and consultations remotely, enabling healthcare professionals to evaluate, diagnose, and treat patients without requiring in-person visits. In the context of radiology as a service, telemedicine allows for the remote interpretation of medical images, enabling radiologists to analyze and diagnose patients' conditions from virtually anywhere.
