"We know that when most people hear the word mesothelioma they think of navy veterans, auto plant workers or shipyard workers. They do not think of school or hospital maintenance workers, but they should. School or hospital maintenance workers might have had daily or routine exposure to asbestos-especially if they regularly worked on or maintained boilers, furnaces or plumbing pipes or equipment. As part of their maintenance duties they were also probably exposed to asbestos replacing or repairing school or hospital ceiling tiles.

"If your loved one now has mesothelioma or lung cancer in Michigan and they worked as a maintenance or repair person at a school or hospital before the mid-1980s please call the legal team at Zamler Shiffman & Karfis at 866-714-6466. Zamler Shiffman & Karfis is Michigan's go to law firm for people with mesothelioma or asbestos exposure lung cancer."
