The report offers a detailed segmentation of the global [one-man flight vehicle](#) market based on range, propulsion, take-off, end use, and region. The report provides a comprehensive analysis of every segment and their respective sub-segment with the help of graphical and tabular representation. This analysis can essentially help market players, investors, and new entrants in determining and devising strategies based on the fastest-growing segments and highest revenue generation that is mentioned in the report.

Based on take-off, the CTOL segment held the major market share in 2021, holding more than three-fourths of the global one-man flight [vehicle](#) market share, and is expected to maintain its leadership status during the forecast period. However, the VTOL segment, is expected to cite the fastest CAGR of 6.9% during the forecast period.

Based on end use, the civil and commercial segment held the largest market share in 2021,

accounting for more than three-fifths of the global one-man flight vehicle market share, and is expected to maintain its leadership status during the forecast period. Moreover, the civil and commercial segment, is expected to cite the highest CAGR of 6.4% during the forecast period. The report also includes military segment.

In terms of range, the less than 100 miles segment held the major market share in 2021, contributing to nearly two-fifths of the global one-man flight vehicle market share and is predicted to continue its dominance over the forecast period. Moreover, the same segment is expected to cite the fastest CAGR of 6.7% during the forecast period. The report also includes 100 to 300 miles and more than 300 miles segments.

Based on propulsion, the conventional propulsion segment held the major market share in 2021, contributing to more than two-thirds of the global one-man flight vehicle market share, and is expected to maintain its leadership position during the forecast period. However, the electric and hybrid segment, is expected to cite the fastest CAGR of 6.4% during the forecast period.

Region-wise, the North American region held the major market share in 2021, holding nearly one-third of the global one-man flight vehicle market share and is expected to maintain its leadership status during the forecast period. However, the Asia-Pacific region is expected to cite the fastest CAGR of 7.1% during the forecast period. The report also analyses other regions such as Europe and LAMEA.

KEY FINDINGS OF THE STUDY

By range, the Less than 100 miles segment leads the market during the forecast period

By propulsion, the conventional propulsion segment leads the market during the forecast period

By takeoff, the VTOL segment is expected to grow at lucrative growth rate during the forecast period (2022-2031)

By end use, the civil and commercial segment leads the market during the forecast period.

Asia Pacific dominated the one man flight vehicle market in terms of growth, followed by Europe, North America, and LAMEA

The key players analyzed in the global one-man flight vehicle market report include

AutoGyro GmbH

Pilatus Aircraft Ltd.

Pipistrel Aircraft

Textron Inc.

Volocopter GmbH

Cirrus Aircraft

Vulcanair Aircraft
Piper Aircraft
Neva Aerospace Ltd.
The Boeing Company
